ENTERPRISE READY

The XDC Network's *speed, scalability and low transaction fees* combined with its *high level of security* make it an attractive blockchain for both novel and time-honored enterprise applications.

TRADE FINANCE FOCUSED

The XDC Network is the *leading blockchain in global trade finance* and was the first (and only) Layer 1 blockchain to be invited to join the Trade Finance Distribution Initiative (TFDi). Its thriving trade finance ecosystem led to it hosting the first-ever trade finance NFT and the first-ever security token for trade finance assets (TRADA).

ASSET TOKENIZATION PLATFORMS

The XDC Network has set the *benchmark for asset tokenization in trade finance*. We provide scalable access to trade finance assets in a secure manner that is decentralized, fast and cost-effective.

Get in touch and see why your peers are integrating with XDC.

Fintech-focused integrations *with the XDC Network*

Fluent created a federation of banks that will mint and redeem US+ stablecoin onto and off of the XDC Network.

Fireblocks is an insured, enterprise-ready institutional digital asset custodian with next generation digital asset security and an instantaneous asset transfer network.

Securrency is a world-class institutional finance platform and is building a no-code Digital Asset Composer and Compliance Technology on XDC Network.

Fathom is a sustainable liquidity protocol that integrates staking, wallets, tokenization, and analytics platforms.

Impel's enterprise-ready platform provides fast ISO 20022 Financial Messaging and Settlement options through a simple API integration.

R3's Corda offers a permissioned (private) network via a bridge from the permissionless XDC Network.

A member of the World Economic Forum and the TFDi's founding member, Tradeteq completed the world's first trade finance NFT transaction and executed it seamlessly on the XDC Network.

BIGG Digital provides on-demand compliance solutions for real world blockchain applications through its BitRank Verified® platform (risk scoring, flagging, and verifying addresses)

TRADA Token is the first trade finance-backed security token, allowing retail and institutional investments in real-world trade finance assets.

Simplex is a licensed financial institution providing a wide range of payment methods to its network of partners.

Working through regulatory frameworks, ComTech Gold provides retail and institutional access to digitized Gold.
