

17 December 2015

Norsepower participates Green Ship Technology 2016

Tuomas Riski, CEO of Norsepower, will be speaking at Green Ship Technology 2016, the world's leading environmental shipping event, which takes place at Copenhagen 15 to 18 March 2016. In attendance will be 300+ industry professionals, 100+ expert speakers, and 70+ shipowners. Key topics under discussion will be:

- The latest on new ship technology and operational measures for reducing shipping's environmental impact
- The implementation process for MRV
- Compliance and enforcement for ECAs and the lessons to be learned for implementation of the BWMC
- Strategies to reduce your GHG emissions and understand the economic benefits for sustainable shipping
- Shipowner panels on their responses to developing and using new technology

Norsepower contacts can claim a 20% discount on attendance when visiting the event website: <http://www.greenshiptechnology.com/FKT2949NORSE>. Quote VIP code: **FKT2949NORSE** at checkout. We're looking forward to seeing you there!

About Norsepower

Norsepower Oy Ltd is a leading Finnish marine engineering company specializing in clean tech solutions within the marine sector. Norsepower's vision is to become the global market leader in cargo vessel auxiliary wind propulsion systems.
