

Specialists in undercarriage solutions...

Bradken has more than 30 years of experience providing innovative undercarriage solutions across the globe. We now announce the release of the Bradken undercarriage solution for Liebherr R996B machines, supplied direct to the end user.

Liebherr R996B Undercarriage Offering

Bradken has years of experience supplying the OEM. During this time, we collaborated on the R996B to re-engineer the track and tumbler to bring about significant improvements on track performance. Today, we offer this direct to you.

Total Cost of Ownership (TCO) Advantage

Bradken now provides mining operations with a low risk option to reduce undercarriage cost of ownership by using a Bradken undercarriage solution for Liebherr's ultra-class machines.

Quality Assurance

Bradken's reputation for high quality, reliable products has been proven over decades of supplying undercarriage systems that we design, manufacture and supply to OEMs and direct to mining customers around the world.

Proven Capability

Bradken has proven design and engineering expertise, and combined with a deep understanding of the manufacturing process, we have created a range of innovative and reliable products to support the global mining industry.

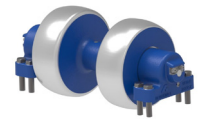

Proven Track Record

For more than 3 decades, Bradken has been the supplier of choice for the majority of the world's mining shovel OEMs. During this time, we have supplied more than 200,000 crawler shoes for mining customers globally. Throughout, Bradken has continued to provide customers with the assurance to perform in the toughest environments on Earth.
