H [REDACTED]

It doesn't look like we had asked for a copy of the presentation

Just looking at the financial section videos it seem to show the presentation. I think it this screen that may show the instant sell [REDACTED]

Is that what you was looking for

Subject: Assessment recordings from Teams - Betindex review

H [REDACTED]

Sorry to be a pain. we are providing records for the external team conducting the Betindex review for the government and after reviewing some of the recordings there appears to be a technical issue where some of the screen share is not visible but the audio is. I am a bit confused by this as during the assessment we could see the screen share so it should be there. In particular if you click on the folder below file 2. Shows this. When going through the other recordings it appears that the actual video of the screen share works in most cases.

I am just checking that there isn't a technical issue which is preventing the audio and video from syncing correctly. Any ideas?

Sorry to be a pain.

[REDACTED] FYI and also do you know if we have a copy of the presentation that BI went through in relation to product and finances?

Many thanks
