Hi all

We have had a request in today from the external BI review team for some additional documents and for answers to some additional questions [REDACTED]

[REDACTED] has already done a great job in moving these requests into a couple of Excel docs that we can complete. She will also be sending through an invite to a meeting on Monday for us to walk this through and to work out exactly which teams/individuals are going to do what. It's obviously very short notice so I'd be grateful if you could prioritise attendance at this meeting over anything else that it might clash with.

[REDACTED] and I have had a first go at working through the further questions doc to identify which teams should pick these up. Any references to "BI WG" are to the Bet Index Working Group. Some of the answers will probably require a collaborative effort.

[REDACTED] – noting that the email from the reviewers asked for these asap, I think it's going to take several days to pull everything together (and particular challenge in Licensing around the SAM allocated to this). I think it'll be next Friday at the earliest and that's going to be a push.

[REDACTED] and [REDACTED] – some of the document requests will require Reg Framework and Comms inputs so including you in the circulation.
