

Message from the Mayor

It is my pleasure to extend greetings and a warm welcome to everyone participating in the virtual International Forum on Pharmacology & Nanotechnology and Global Summit & Expo on Telemedicine & Digital Health hosted by the Innovative Concepts Outstanding Network (ICON Conferences).

Due to the pandemic this year's conference will go virtual so the students, scientific experts, academics and business leaders can share the latest research in pharmacology through a series of webinars and keynote presentations. This year's conference will focus on advancements in drug delivery and new chemical compounds.

As we continue to confront the challenges posed by the COVID-19 pandemic, developments in pharmaceutical sciences and other branches of medicine are becoming increasingly important. I am pleased that you have found a way to virtually bring people together during this challenging time.

On behalf of Toronto City Council, please accept my best wishes for an informative and enjoyable event.

Yours truly,

John Tory
Mayor of Toronto
