

PIX4D sub-processors

As mentioned in our Data Processing Agreement we have added on this page the list of the sub-processors currently engaged by Pix4D. Some of these are not located in Switzerland. Your data may therefore be processed in locations outside Europe for specific purposes, as listed in the Pix4D sub-processor list. If a sub-processor is located in a country without adequate statutory data protection, we require the sub-processor to undertake to comply with data protection (for this purpose, we use the [European Commission's standard contractual clauses](#), which can be accessed [here](#) and [here](#)).

Subcontractor	Location of data centers	Description of Processing
