

Technician for Aptean EAM
TabWare Edition

Increased Quality of Inspections and Calibrations

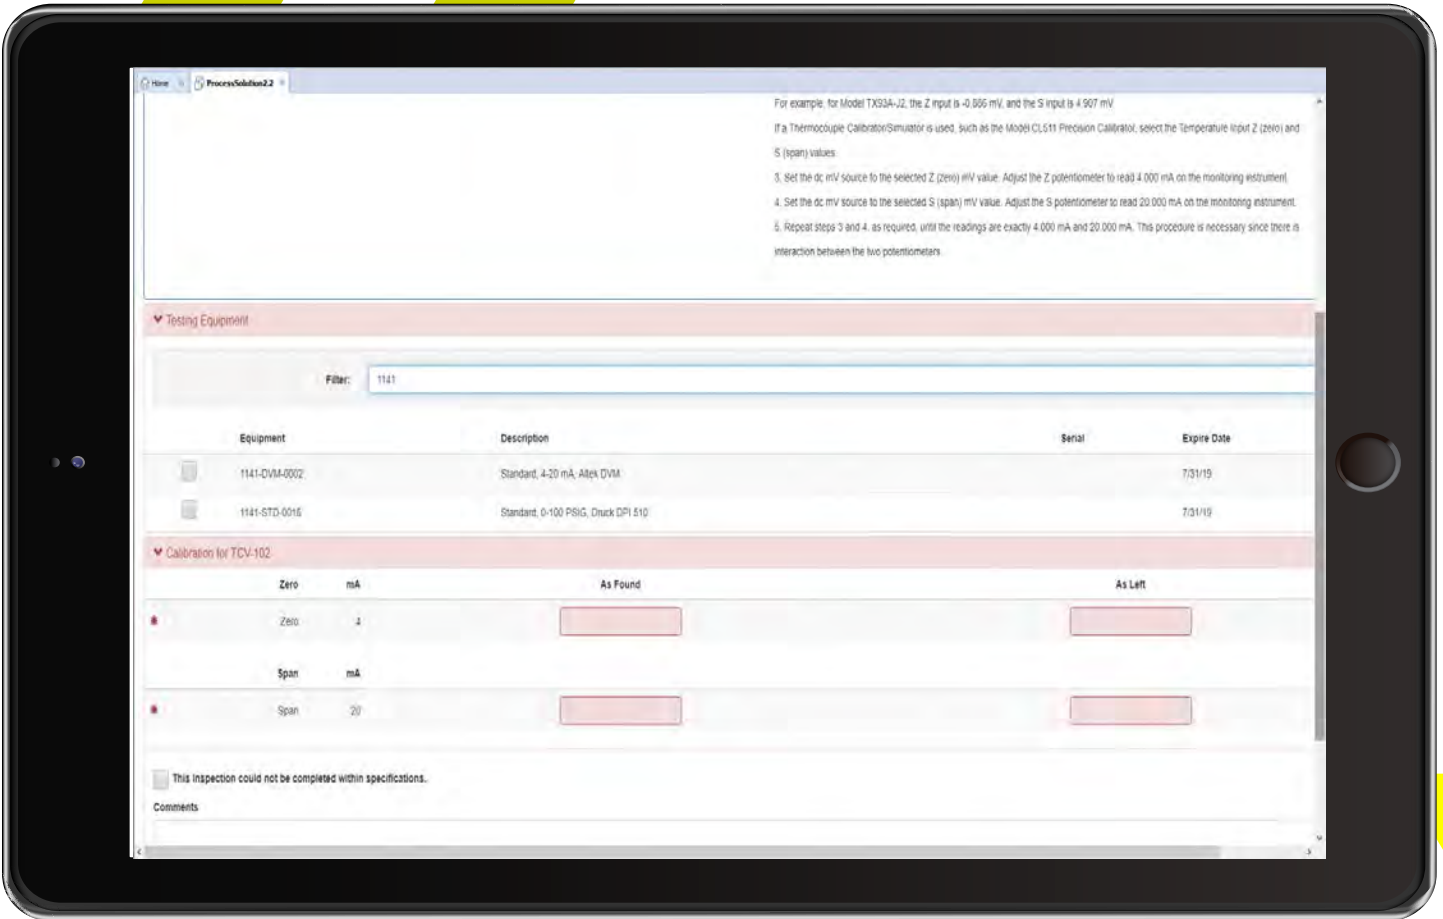

Ensure Quality and Reliability Through Better Inspections

To consistently and reliably produce quality products, you need to inspect and calibrate your equipment routinely. Regular inspections help you to spot issues before they're problems, mitigate risks and improve compliance. You want to know that this process is completed and documented how it's supposed to be and on schedule.

Technician for Aptean EAM is a mobile-ready solution that improves information reliability and efficiency by as much as 20%. Your technicians have access to all of the information they need to complete and record their critical tasks, all in the palm of their hands at the point of execution.

In addition to standard capabilities such as logging labor, issuing parts and closing out work, Technician for Aptean EAM supports your maintenance team with:

- › Work Detail and Equipment History
- › Required Entries Notification
- › Electronic Checklists, Drop-down Prompts and Free Text Fields
- › Enforced Procedures and Tolerance Enforcement
- › User-Configurable Forms, Columns and Entries
- › Ability to Attach Pictures and Documents

Technician allows point-of-execution information availability and data capture

Key Benefits

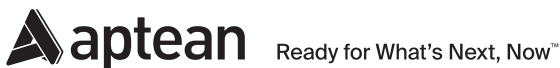

- › **Accessibility** – a mobile-ready solution that gives maintenance technicians the information they need wherever, whenever
 - › **Consistency** – with drop-down menus, required fields and electronic checklists, work can be performed consistently throughout your facilities
 - › **Efficiency** – with this point-of-execution technology, your team doesn't have to waste time searching for information or following up on documentation
