

Aptean Industrial Manufacturing
Made2Manage Edition

Industrial Manufacturing ERP in Aptean Cloud

Get up-to-date with cloud-enabled ERP

There's a good reason so many companies are moving to software-as-a-service (SaaS) environments. SaaS models offer unparalleled security, flexibility and scalability. And we brought all of those benefits to the Aptean Industrial Manufacturing ERP without sacrificing any of the features our customers love in the on-premise version.

- ▶ **Enhanced Security** – Our secure and monitored online environment ensures maximum privacy and offers protection against a breach of your data.
- ▶ **Fewer Costs** – Running your own data center is expensive; avoid unplanned expenses with defined, predictable costs.
- ▶ **Scalable Growth** – There's no reason to pay upfront for your future needs – our scalable model allows you to dynamically add computing power and capacity as you grow.
- ▶ **Always Backed-Up** – Even if your facilities suffer from something like a natural disaster or hardware failure, rest assured that your data is backed up and still available.
- ▶ **Scheduled Updates** – Updates to your software are pushed through the cloud, always guaranteeing the latest and greatest version.
- ▶ **No Cut Corners** – Unlike some software providers, our Cloud version is identical to the original – all the same great features you expect, in a SaaS environment.

Key Benefits

- › **A Trusted Platform** - Aptean Cloud offers enterprise-grade SLAs and industry-leading support. We also leverage segmentation and volume encryption to provide you with the highest degree of data security while still remaining flexible.
- › **No On-Premise Equipment** - Eliminate those costly hardware purchases and upgrades. Forget the license costs for database and operating systems. And no more expensive hardware maintenance, either.
- › **Downtime Loss Avoidance** - We know that when your system is down, your whole company is down. Our 99.9% uptime guarantee demonstrates just how confident we are that Aptean Cloud is the best solution on the market. Plus, your data is backed up in the event of any kind of failure.
- › **Never Miss An Update** - Our multi-tenant SaaS architecture ensures software updates and bug fixes are pushed directly to end-users. There are no additional costs associated with updates when using our standard product offerings.
- › **Powerful Modules Included** - Advanced Reporting and Event Management Framework (EMF) are already included in the cloud version of Aptean Industrial Manufacturing *Made2Manage Edition*. Since these modules are fully integrated and accessible from day 1, your business can realize even greater value, faster.
- › **Grows With Your Business** - Save time and money knowing you won't have to estimate your future needs. Aptean Cloud uses a scalable model to add computing power as soon as it's needed.
