

Aptean Event Management Framework for Intuitive ERP

A new level of automation and notifications

In today's competitive market, efficiency is key. Your organization must move quickly to respond to customer questions, deliver documents and notifications, and intervene to resolve situations before they escalate. Aptean Event Management Framework (EMF) for Intuitive ERP enables you to accomplish all of these critical requirements. EMF is easily integrated into your existing business system infrastructure, putting all of its power at your fingertips.

Automate Notifications –

Automated logic and workflows send notifications to designated users/business systems and track their responses.

Improve Decision Making –

Role-based messaging delivers relevant information so you can make faster, more informed decisions.

Increase Collaboration –

On the road or in the office, EMF's mobile communications help users collaborate with their customers and suppliers.

Reduce Repetitive Tasks –

Automate routine activities by triggering customer, vendor and employee communications in real time or on a predetermined schedule.

Eliminate Constant

Monitoring – With time-sensitive event monitoring, you'll receive information at the right time to respond and make corrections.

Connectivity without Coding

– EMF sits across your existing systems without a need for deep integration, so you can start leveraging its capabilities right away.

Workflow Categories

EMF for Intuitive supports automated workflows that you can easily build yourself. Below are just a few examples of the types of workflows you can build with EMF.

- **Exception notifications** – Receive alerts when an operation is late, when an item balance goes negative, and more.
- **Routine activity automation** – Automatically send customers notice that invoices are due, send vendors notice for late materials, send acknowledgments across the organization for repetitive operational activities, and more.
- **Ask Intuitive** – Email Intuitive a question from your mobile device to get a real-time status update for a job, customer, or vendor.
- **Integration** – Build and manage integrations and data imports / exports with other systems, both within and outside of your organization.

The image shows a screenshot of an email workflow in a software interface. The email content is as follows:

Dear BOB JOHNSTON,

Please review the following list of items that we ordered from **DOLTON AIRFLOW INC.** and that either became past due as of today or will be due in the next 5 days. Please [click here](#) to review the COMPLETE list of due and past due items and indicate whether you will be able to ship these parts as per Required Date shown, or update the Promised Date with the new shipment target date.

Due Code	PO ID	PO Line Nbr	Req Date	Item ID	Item Name	Req Qty
DUE THIS WEEK	000117	4	12/31/2017	FW2010	WASHER, #10 FLAT	100.00000
DUE THIS WEEK	000126	4	12/31/2017	FW2010	WASHER, #10 FLAT	100.00000
DUE THIS WEEK	000150	4	12/31/2017	FW2010	WASHER, #10 FLAT	100.00000
DUE THIS WEEK	000151	4	12/31/2017	FW2010	WASHER, #10 FLAT	100.00000

The workflow diagram below the email shows the following steps:

- Schedule
- Start
- SQL_NewOpenPOs
- Data Filter
- SQL - Unique Vendors With New Open POs
- Loop
- Log Message
- Dynamic Recipients
- Email body

The EMF solution is affordable, easy to use, and configurable to meet the needs of your organization. Its built-in alert service objects, templates, and modules allow new workflows to be configured and implemented with minimal effort. Let EMF for Intuitive help keep your business in synch with your business partners, and minimize the inefficiencies and risks within your business processes.

For more information about EMF for Intuitive ERP, contact your Aptean account manager or email us at info@aptean.com.

Aptean provides very specific industries with very specific ERP, supply chain management, and compliance solutions. In today's fast-paced, highly competitive economy, organizations don't have time to waste forcing homegrown software, spreadsheets, and one-size-fits-all solutions to do things they were never designed to do. Aptean is on a mission to end those workarounds – with industry-specific solutions instead of generic software, expert support instead of making you go it alone, and a steady influx of new ideas instead of the status quo.
