

Leveraging Technology to Overcome Workforce Shortages in the Food and Beverage Industry

aptean Ready for What's Next, Now

Struggling with staffing issues?

Ongoing labor shortages continue to **negatively impact** the food and beverage industry.

83%

of manufacturers cite attracting and retaining a quality workforce as a top focus

45%

of manufacturers have turned down business opportunities due to lack of workers

To overcome ongoing labor shortages, you need to ensure that your staff is engaged, productive and empowered by technology. Aptean's industry-specific software solutions promote efficiency, utilization and accountability with the following features:

Aptean Food & Beverage ERP

- » Increased utilization and accelerated onboarding of employees thanks to streamlined workflows in an intuitive, user-friendly interface
- » Greater accessibility with a solution employees can access from anywhere thanks to flexible cloud deployment
- » Automated order generation and scheduling free up human resources for mission-critical tasks

Aptean Process Manufacturing OEE

- » Increased opportunities for process improvement with real-time performance tracking and shop floor visibility
- » Automated data collection and analysis via direct integrations with shop floor systems
- » Enhanced communication and problem-solving across teams thanks to tools for collaboration

Aptean EAM

- » Greater efficiency with digitized work orders and paperless record-keeping
- » Real-time connection to the shop floor from anywhere via the cloud, including asset status and work order progress
- » Quick access to information you need as you need it, like maintenance checklists and equipment manuals while on the job

At Aptean, we strive to collaborate with each and every one of our clients to fuel success. We have decades of collective experience and best practices knowledge in the food and beverage industry and are ready to help you explore how these solutions can help you succeed even in today's tight labor market.
