

Aptean Not For Profit ERP

Aptean Not For Profit ERP provides a robust set of features for Not-for-Profit (NFP) organizations in an intuitive, easy to use product. It gives you total integration to the General Ledger, Accounts Payable, and Payroll applications, and has the fund accounting features frequently requested by not-for-profit organizations.

Aptean Not For Profit ERP gives you the ability to improve financial management practices, increase flexibility in financial reporting, and streamline your tracking process for expenses. And because Aptean solutions are scalable, they can address the needs of virtually any size NFP organization.

The allocation feature saves you data entry time by automatically splitting the amount to allocate among the segments dictated by the allocation method. The result will be a multiple record entry for several different accounts in the GL transactions screen. This feature is also included in our Accounts Payable and Payroll modules.

Aptean Not For Profit ERP

Provides organizations with an affordable, easy to implement financial software solution. Aptean Not For Profit ERP is written with MS SQL and .net technology with built-in customizability.

Budget Module

Budget integration to Excel is designed and written to provide two-way integration between your financial software and Microsoft Excel. It can be used for state reporting requirements, grant reporting, generating budget worksheets and loading the budget into the ERP.

Individual Tracking System (ITS)

Software designed for Not-for-Profit organizations that employ or provide services to people with disabilities. It tracks AbilityOne Programs and assists with special reporting needs required by SourceAmerica. ITS™ features time and attendance, piece rate payroll, human resources, and outcome reporting.

Human Resource Module

Provides a robust full featured human resources management system with optional integration to our Payroll module. It allows you to manage the entire workflow process from new employee hiring, orientation, benefits, performance, compensation, reviews, and training.
