

**Aptean EDI**

*Electronic Data Interchange for  
Food & Beverage Manufacturing*

# Boost Your Food and Beverage Business

Aptean EDI is now available for food and beverage customers as a fully integrated component of your Aptean ERP. This unique solution brings together Aptean's in-depth knowledge of the food and beverage industry with proven expertise in our EDI managed service. Aptean EDI for food and beverage complements your existing Aptean ERP software to streamline and automate data transfers. Aptean EDI has minimal setup requirements allowing you to connect to your trading partners in no time. As your business grows, Aptean EDI makes it easy to add new trading partners and document types.

## **Benefits**

- » Increased business efficiency
- » Integrated for simplicity
- » Compliant with major retailers

## Uncomplicated EDI

Stand-alone EDI systems require additional resources to operate and continuously monitor and manage third-party integration. When using a stand-alone EDI system, if issues do arise, both the ERP and EDI providers need to be involved and coordinated until the problem is resolved. Fully integrated EDI has none of these complications.

- › **Fully Integrated** – Works seamlessly within the existing Apteau Food and Beverage ERP system, automatically sending data to and from trading partners without 3rd party intervention.
- › **Expert Support and Services** – The experienced team will continue to support you and your trading partners, proactively managing your account before problems become issues.
- › **Simplified Pricing** – One invoice, one contract and a single point of contact for all EDI needs.
- › **Proven Technology** – Used by over 350 companies for over 20 years with a proven track record of compliance and reliability.
