

**Analytics for Apteian EAM**  
*TabWare Edition*

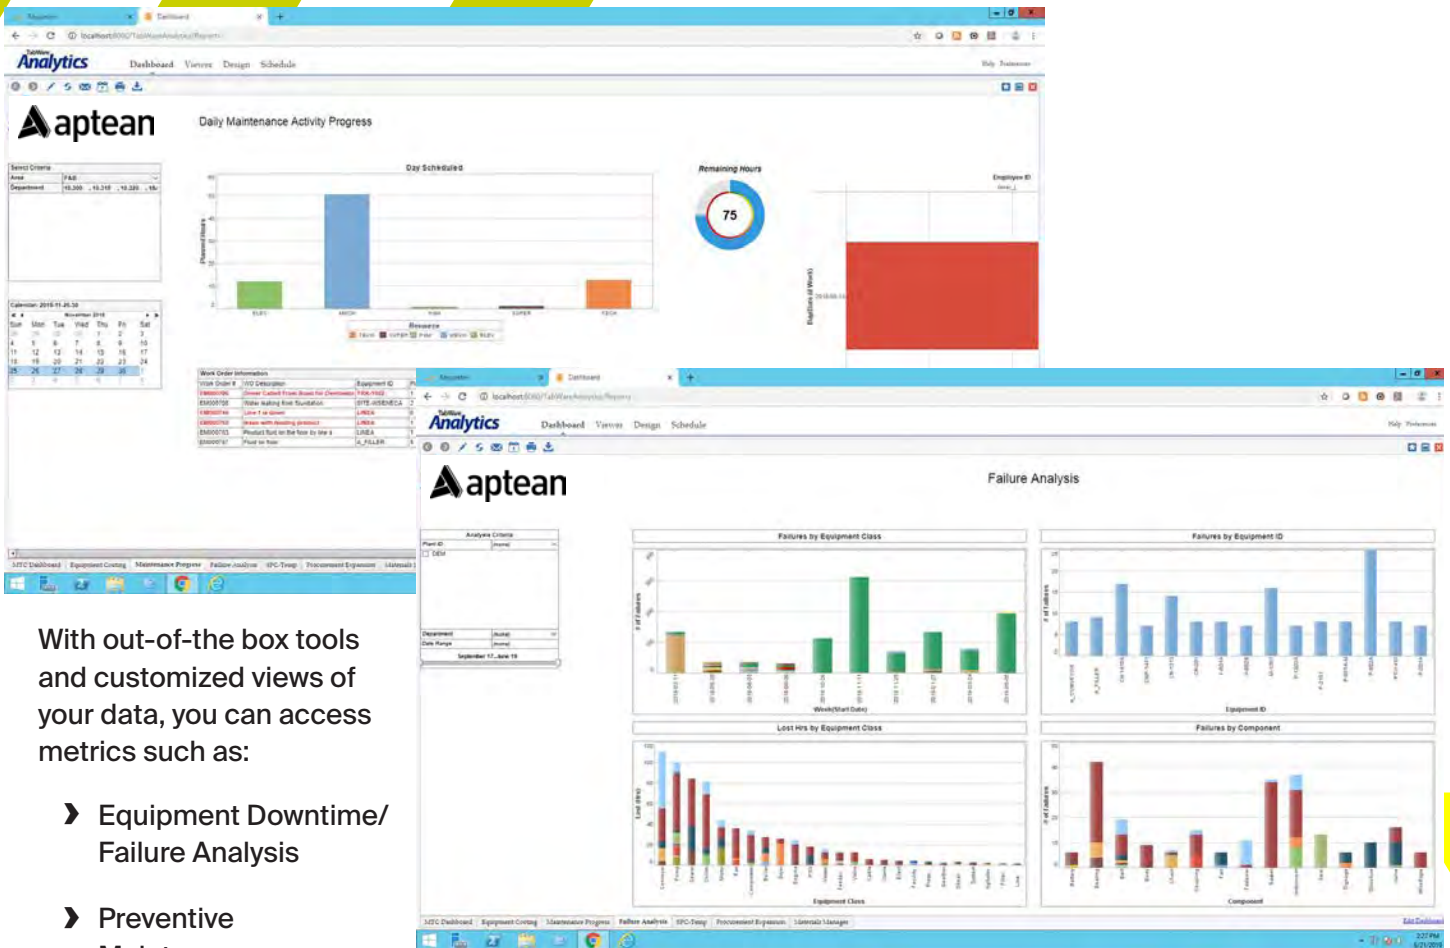

# Drive Maintenance Performance and Improvement

## **Gain Instant Insights into Your Key Metrics**

For your maintenance organization to consistently succeed and reach your strategic goals, it's critical to know how your team is tracking against KPIs and key metrics. You want to be able to regularly see what's working with your equipment and processes and what can be improved so that you can measure improvements throughout the organization.

With Analytics for Apteian EAM, you can instantly access production and equipment performance and improvement data and metrics. Analytics directly accesses data stored in Apteian EAM and provides powerful data management, predictive analytics and reporting technology so you have a full picture of how you are tracking against your goals. Analytics uses industry best-practices to visualize your data to give you instant insights, and is available on any mobile or desktop device.

With out-of-the box tools and customized views of your data, you can access metrics such as:

- Equipment Downtime/ Failure Analysis
- Preventive Maintenance Compliance
- Workorder Backlog
- Inventory Turns and Costs

## Key Benefits

- › Intuitive interface from end-user to power-user
- › Anytime web access for viewing on smartphone, tablet or computer
- › Powerful, interactive multi-dimensional analysis
- › Easily configurable KPI, metric, and data views
- › Ability to drill into detailed data views to find answers you need
- › Easily and quickly create customer-specific analysis
- › Facilitates continuous improvement strategies for maintenance organizations
