

**Aptean EAM**  
*API PRO Edition*  
*Maintenance Efficiency & Performance*

# Optimize Your Maintenance Process

Production efficiency is crucial when competition is strong, deadlines are tight and productivity requirements are high. You need a solution that not only is easy to use but is adaptable and integrates into your existing processes.

Aptean EAM *API PRO Edition* is a flexible and configurable solution that adapts to the specific needs of your operations. With over 30 years of close cooperation with customers this solution offers best practices for all of your critical processes.

Whether you are a single-site operation or a global multi-site organization, Aptean EAM will scale to your company's individual needs by seamlessly connecting your data across all machines, lines, teams and sites, ensuring accurate metrics and maintenance efficiency.

## Key Benefits

- › **Customized to Your Needs** – Apteam EAM is built with only the features you need and the ability to customize views, reports and other key aspects to ensure your team is ready to go.
  - › **Simple to Use** – Single clicks to get overviews on metrics across entire plants, instantly create work orders or stock removals for selected objects.
  - › **Easily Integrates** – Apteam EAM is developed for smooth integration into your IT structure, sharing information with ERP, OEE, MES and SCADA systems.
  - › **Lower Maintenance Costs** – Get ahead of costly downtime with automatic data collection and automatic creation of work orders based on operational hours, counter values and sensor data.
  - › **Smarter Decisions** – Make informed decisions with accurate and real-time data. Present reports with KPIs critical to your business growth and success.
