

Aptean Industrial Manufacturing
Made2Manage Edition

More Flexible & Efficient Manufacturing ERP

Aptean Industrial Manufacturing *Made2Manage Edition* is an end-to-end solution for manufacturers in job shops and dynamic “to-order” environments. Perfect for manufacturers where flexibility and efficiency are required, Aptean Industrial Manufacturing ERP offers essential features like real-time scheduling, job costing and shop floor execution tools. If you want to streamline your operations, reduce costs and improve your supply chain visibility, *Made2Manage Edition* is the right ERP for your business.

Own the Shop Floor

We designed Aptean Industrial Manufacturing ERP for make-to-order (MTO), make-to-stock (MTS), assemble-to-order (ATO), engineer-to-order (ETO) and mixed-mode environments. This feature-rich system seamlessly integrates ERP and advanced scheduling capabilities with shop floor execution features.

- ▶ **Enterprise Resource Planning (ERP):** With end-to-end visibility and flexible control over your back office operations, oversee everything from job costing and materials management to finance
- ▶ **Supply Chain Management:** Optimize supply chain efficiency and maximize throughput with advanced tools for interactive forecasting, real-time planning and scheduling, and shipping and receiving
- ▶ **Customer Relationship Management (CRM):** Provide responsive service to your customers while managing customer and opportunity data—all from the same platform
- ▶ **Business Intelligence:** Extract key business insights in real-time by leveraging built-in reporting and analytics tools

Key Features

- › **Quoting & Order Management** – Provide reliable quotes and estimates with the ability to custom-configure products at the point of sale
 - › **Real-Time Planning & Scheduling**– Prioritize and schedule job operations, react swiftly to scheduling issues and maintain accurate delivery dates
 - › **Engineering Management**– Create and maintain flexible bills of material while tracking engineering changes, and even manage non-standard parts
 - › **Procurement Management** – Understand and accommodate your procurement requirements to efficiently execute plan
 - › **Insight Into Job Costs & Profits** – Track job costs and profits in real time and compare actual costs against estimates at any point in the production process
 - › **Built-In Reporting & Analytics** – Build and format dynamic reports to analyze financial and operational data – all without leaving Aptean Industrial Manufacturing ERP
- 

Additional Capabilities

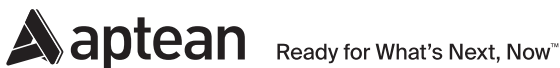

Advanced Scheduling – Maximize throughput, minimize late jobs and promise accurate delivery dates with powerful scheduling algorithms

- › **Shop Floor Manager** – Instant visibility into priorities and order statuses while allowing operators to easily clock in/out and report completed jobs
- › **Shop Floor Data Collection (SFDC)** – Utilize a mobile bar code solution to automate the entry of data from receiving, shipments, inventory transactions, labor reporting and label generation
- › **Advanced Quality by uniPoint** – Track the cost and frequency of quality events, initiate non-conformances and corrective actions and manage compliance with ISO and FDA quality systems.
- › **Aptean Analytics for Aptean Industrial Manufacturing *Made2Manage Edition*** – Translate data into actionable business insights and drill down into root causes with interactive pre-built dashboards and reports
