Advanced Reporting for Aptean
Industrial Manufacturing ERP

Flexible Financial and Operational Reporting

Streamline your financial and operational reporting. Simplify access to your data and improve visibility into your operations. Advanced Reporting for Aptean Industrial Manufacturing ERP *Made2Manage Edition* makes it easier than ever to create the reports and dashboards you need to make critical business decisions.

Empower Your Business

Easily create rich financial reports using data directly from Industrial Manufacturing ERP. You'll also be able to drill down into transaction-level data, build reporting hierarchies with filters based on your GL structure, and generate great looking graphs and dashboards. On the operational side, you can create reports based on purchasing, sales, shipments, labor, inventory actions and much more. And when you're ready to distribute, you can share the final product across the entire organization with ease.

❯ **Real-time reporting** – Run real-time reports in a web browser on your desktop or tablet

❯ **Complete visibility** – Drag-and-drop dashboards adapted to your personal preferences provide full visibility into your organization's KPIs

❯ **Drill-down capability** – Easily reconcile transactions or dive into data using the built-in drill-to-source capabilities

❯ **Automated reporting** – Instantly schedule, run, and publish reports in HTML, PDF, or spreadsheet formats, and distribute them on a pre-determined schedule

Key Features

❯ **Familiar report environment** – View data and create financial statements and operational reports in a familiar, Excel-like format

❯ **Easy access to KPIs** – Use simple point-and-click procedures to create KPI dashboards with graphs, charts, gauges, and reports for executives

❯ **Robust, customized reporting** – Set reporting hierarchies within your GL structure and generate reports for any period of time based on any variable

❯ **Multi/cross-company functionality** – Consolidate and analyze data across multiple companies

❯ **Operational spheres** – Give users access to create custom reports with data taken directly from Industrial Manufacturing ERP

❯ **Browser access** – View and run reports, and control user distribution all within your web browser

❯ **Unlimited users** – Every authorized user in your organization can access the data they need
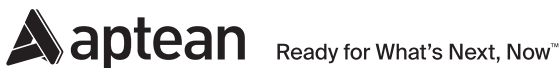

Report Writing Made Easy

Creating custom financial reports has never been easier, thanks to the spreadsheet-like look and feel of Advanced Reporting. Drag-and-drop reports and dashboards can be adapted to your personal preferences and provide full visibility with easy drill-down to transactions. Pre-built data spheres simplify report creation, allowing non-technical users to easily create powerful reports and analysis.
