

Requester for Apteon EAM
TabWare Edition

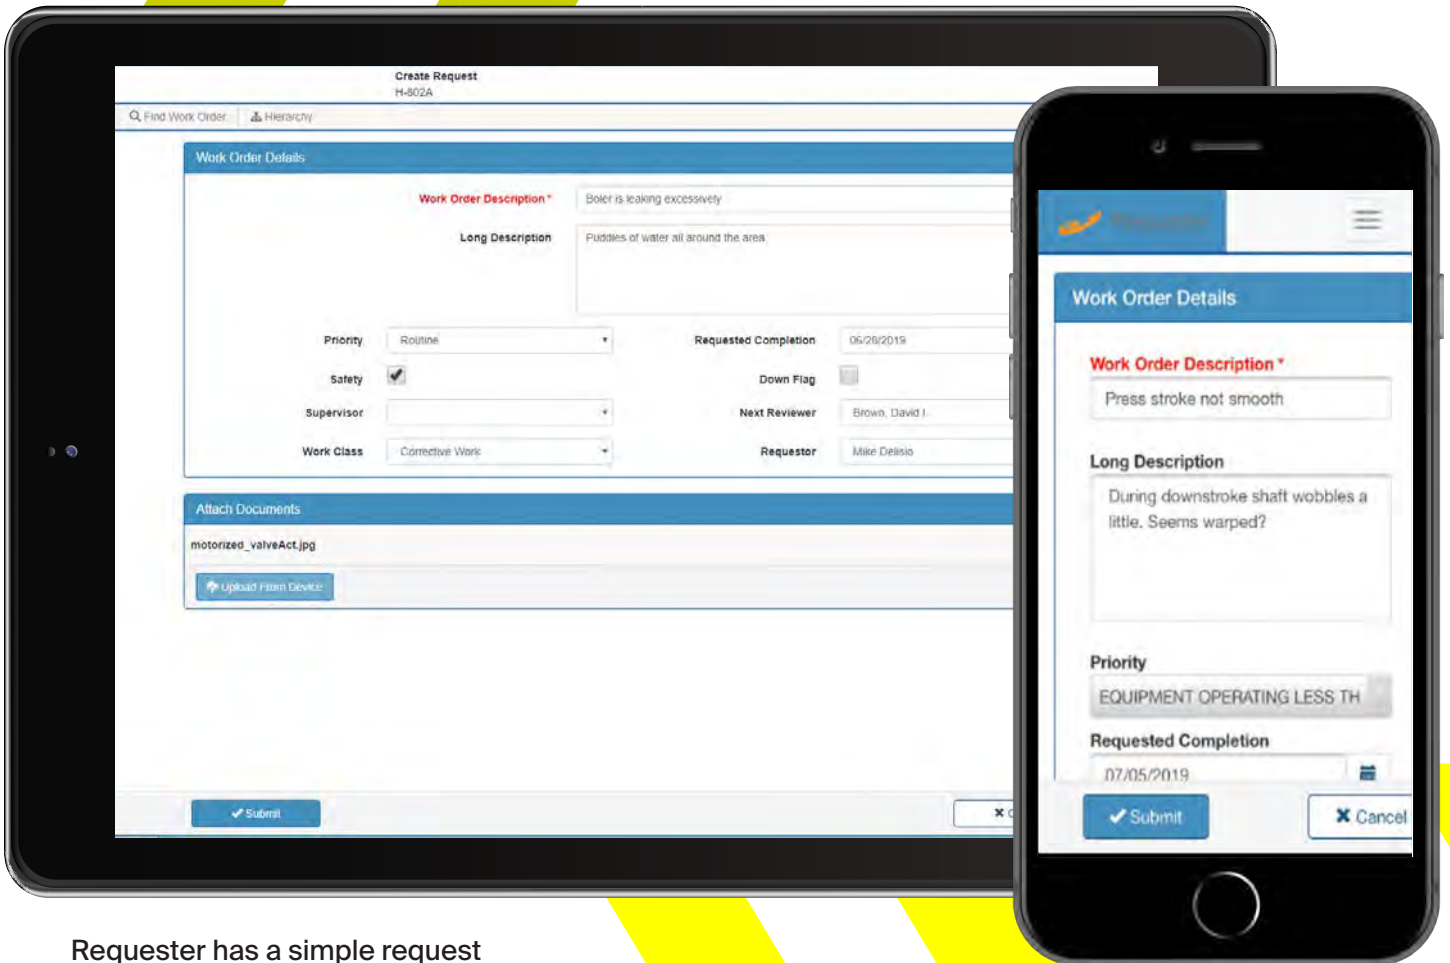

Easy and Efficient Work Order Requests

Streamline Your Work Requests with Self-Service

It can be challenging to prioritize and track work order requests, as well as maintaining documentation. You want your employees to be able to easily submit a request and to quickly and easily be notified when progress is made so they can stay focused on the rest of their jobs instead of spending time tracking information.

Requester for Apteon EAM *TabWare Edition* is an intuitive, self-service work request solution that is browser-based and accessible anywhere. Your team is able to submit work requests directly to Apteon EAM, complete with pictures or other supporting documentation, where it is immediately processed in the Apteon EAM Work Backlog. The person making the request will be notified of progress automatically.

Requester has a simple request process, accessible from any mobile or desktop device

Key Benefits

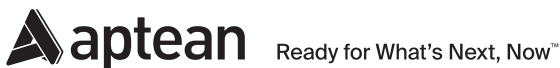

- › **Easy to Use** – simple sign on with intuitive step-by-step menu to request work and upload documentation
 - › **Accessible Whenever, Wherever** – browser-based solution can be used on any mobile or desktop device
 - › **Automatic Notifications** – notifications are sent as work progresses so your team is able to focus on what's important, not tracking
 - › **Employee Empowerment** – your team can request work when they see that it's needed and stay up to date on progress
-
