

Elanco, Aratana Announce Positive Opinion on GALLIPRANT® (grapiprant tablets) in Europe

LEAWOOD, Kan. (U.S.) (For EU audience), November 10, 2017 — Elanco Animal Health, a division of Eli Lilly and Company (NYSE: LLY) and Aratana Therapeutics, Inc. (NASDAQ: PETX), today announced the European Medicine Agency's (EMA) Committee for Medicinal Products for Veterinary Use (CVMP) adopted a positive opinion to recommend the marketing authorization of GALLIPRANT® (grapiprant tablets) in the European Union. Following the positive opinion, the European Commission will complete the regulatory process for a final decision on the Marketing Authorisation in early 2018.

Galliprant is a new veterinary medicine that will be indicated for the treatment of pain associated with mild to moderate osteoarthritis in dogs. Grapiprant, the active ingredient in Galliprant, is a non-steroidal non-cyclooxygenase inhibiting anti-inflammatory drug. Elanco has exclusive rights to develop, manufacture, market and commercialize Galliprant globally, and it co-promotes the product with Aratana in the United States.

About Elanco Animal Health

Elanco provides comprehensive products and knowledge services to improve animal health and food-animal production in more than 70 countries around the world. We value innovation, both in scientific research and daily operations, and strive to cultivate a collaborative work environment for more than 6,500 employees worldwide. Together with our customers, we are committed to raising awareness about global food security, and celebrating and supporting the human-animal bond. Founded in 1954, Elanco is a division of Eli Lilly and Company. Our worldwide headquarters and research facilities are located in Greenfield, Indiana (U.S.). About Aratana Therapeutics

Aratana Therapeutics is a pet therapeutics company focused on licensing, developing and commercializing innovative therapeutics for dogs and cats. Aratana believes that it can leverage the investment in the human biopharmaceutical industry to bring therapeutics to dogs and cats in a capital and time efficient manner. The company's pipeline includes therapeutic candidates for the potential treatment of pain, inappetence, viral diseases, allergy, cancer and other serious medical conditions. Aratana believes the development and commercialization of these therapeutics will permit veterinarians and pet owners to manage pets' medical needs safely and effectively, resulting in longer and improved quality of life for pets. For more information, please visit www.aratana.com.

This press release contains forward-looking statements (as that term is defined in the Private Securities Litigation Reform Act of 1995) about Galliprant, and reflects Lilly, Elanco's and Aratana's current beliefs. However, as with any pharmaceutical product, there are substantial risks and uncertainties in the process of development and commercialization. Among other things, there can be no guarantee that Galliprant will be commercially successful. For further discussion of these and other risks and uncertainties, see Lilly's and

Aratana's most recent Form 10-K and Form 10-Q filings with the United States Securities and Exchange Commission, respectively. Except as required by law, Elanco and Aratana undertakes no duty to update forward-looking statements to reflect events after the date of this release.
