SAFETY DATA SHEET AND RULES FOR MINERAL WOOL **ISOLLAM** STORAGE

1. Toxicological information

1.1. Sharp oral toxicity (LD50/LC50)	NO
1.2. Inflammation and irritation effect	NO
1.3. Cancerous, reproduction, toxicological effects	NO

2. Instruction for storage

2.1. Storage conditions - dry and ventilated premises, rolls packed in PE bags.

2.2. Lamella mat is transported in PE bags.

After delivery lamella mat has to be preserved in the bags and be taken out prior to installation.

3. Potential effect on health :

- skin contact – dust and fibers may cause temporarily itching, irritation or skin reddening. If such irritations occur, do not rub but wash well with water and then with a soft soap.

- eye contact – if dust falls into the eyes it may cause itching, irritation or skin reddening. In that case wash well with water for about 15 minutes, do not rub, and call a medical person.

4. Safety Occupational rules

Loading, unloading and mounting of mineral wool:

- ⇒ Use appropriate work clothes and gloves;
- ⇒ Use dust safety mask and glasses;
- ⇒ Use of hat is recommendable, especially if you work with the material high above your head;
- ⇒ If dust falls into eyes, wash well with water and call a doctor if necessary;
- ⇒ If allergic reactions occur, call a doctor.

6. Other information:

- ☑ Inorganic products made of basalt mineral fibers;
- ☑ Open structure of fine fibers;
- ☑ Chemical neutral product, with no corrosive effect on metals when in contact;
- ☑ Perfect sound and thermal – insulation;
- ☑ Non-flammable material,
- ☑ Fire resistant;
- ☑ High dimensional stability;

- Resistant to humidity, mold, microorganisms, rodents, etc.;*
- Easy for fitting and cutting;*
- Packing: PE bags*
- Application: For thermo-insulation of external and internal pipe lines*

Valid from 2012
