

Dankort payment card agreement

Price list for physical sales

Effective from 1 April 2026

Dankort subscription

The annual Dankort subscription is governed by Nets in accordance with §123, article 5 of the Danish Act on Payments.

You need to have one subscription per physical sales site with the same CBR.no/owner.

Price model for Dankort FIXED

Choosing Dankort FIXED you pay a fixed fee per month*. The price will be set based on the number of transactions within the last four quarters i.e., where you are placed in price group 1-10, and your average ticket size.

If your rank in price group 1-10 changes, or your average ticket size changes, your subscription price will change as well.

Collection of subscription

Subscription payments are collected each month in arrears, unless you choose a quarterly settlement. Nets calculates the subscription for each business. The calculation is based on the number of transactions the company has had in the last four quarters. Subscriptions are automatically deducted. The deduction will reflect on the account statement, Nets does not send out invoices.

New merchants

New merchants do not have Dankort transactions the last four quarters, so they will start in price group 1. This means that merchants with Dankort FAST may have a lower price the first quarters compared to after four quarters, while the opposite may be the case for merchants with Dankort PERCENT.

Termination

If a business closes, you will be charged for the current quarter immediately after closing. Therefore, they may be charged lower during the first 1-2 quarters than after Q3-Q4.
