## Bookable services.

### TAILOR-MADE DRIVING EXPERIENCES.

Enhance your racetrack experience as part of the Porsche Track Experience – tailored, comfortable and precise. Choose from additional services such as Porsche rental vehicles, personal instructor coaching, technical vehicle support or exclusive pit garage options. Our experienced mechanics team is on hand, carries out minor work and checks, and can provide tyres and spare parts on request. For GT Trackday Racecar, a comprehensive technical support package can also be booked.

During GT Trackday and GT Trackday Racecar, there is also the option to rent a pit garage exclusively for vehicle preparation. Please note for GT Trackday: if you have booked a personal instructor, we recommend not hiring a garage in order to maintain maximum flexibility.

## Personal instructor.

Benefit from the expertise of a Porsche instructor who will support you individually throughout the entire event. In 1:1 sessions, they accompany you on track in the instructor vehicle, coach you via radio and, on request, analyse your performance using data and video. Alternatively, for GT Trackday Racecar you can book an instructor who supports you exclusively off track with data and video analysis – for precise feedback and tangible progress.

## Accompanying persons.

Would you like to share your driving experience on the racetrack with someone? Then simply book your accompanying person to your training. They will receive full access to the hospitality area including catering and can experience the event up close. Depending on the training format, they may also be able to join you on track as a passenger. For Track Icons, any passenger ride is subject to capacity and section availability.

## Porsche rental vehicles.

Whether on a racetrack or a test area, choose the model from our range of Porsche rental vehicles that perfectly matches your training goals. All-electric or combustion-powered, sports car or racecar – experience pure Porsche dynamics, precisely tailored to your programme. All vehicles are professionally prepared, ensuring maximum performance and safety.

## Side programmes.

### SPECIAL RACETRACK MOMENTS.

Experience the Porsche Track Experience from a new perspective – without having to take the wheel yourself. Our side programmes immerse you in the special atmosphere of the Porsche Track Experience and offer exclusive behind-the-scenes insights into our events. A carefully curated, varied programme ensures unforgettable moments.

#### Mendig Airfield (DEU)

The former military airfield setting, featuring a 1.6-kilometre runway, enables highly dynamic driving exercises to be carried out with maximum safety.

#### Testtrack Boxberg (DEU)

Covering 94 hectares, the site offers ideal training conditions, including a dynamics area, handling circuit, gradient hill and a high-speed oval for speeds of up to 200 km/h.

#### Circuit de Barcelona-Catalunya (ESP)

The 4.6-kilometre track combines fast and slow corners. A long straight leads into a technical section. The uphill Turn 7 is considered particularly challenging.

#### Hungaroring (HUN)

The hilly terrain increases complexity, while 8 right-hand and 6 left-hand corners create a tight, twisty layout that demands precision and culminates in high speed on the 790-metre straight.

#### Nürburgring Nordschleife & GP Track (DEU)

As one of the world's most iconic race circuits, the Nürburgring is a true legend. Across 25.4 kilometres, the combined layout features a total of 87 corners – making it one of the longest racetracks in the world.

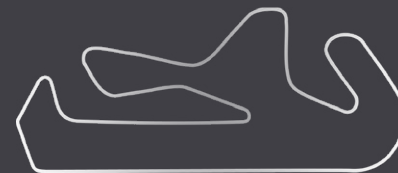

#### Autodromo Internazionale del Mugello (ITA)

The Mugello Circuit, first opened in 1974 as a 66-kilometre road course, is today a 5.2-kilometre circuit with 15 corners – an icon of Italian motorsport.

#### Circuit de Spa-Francorchamps (BEL)

Spa-Francorchamps captivates with 200 metres of elevation change and a legendary layout, and is especially renowned for the Raidillon/Eau Rouge complex.

#### Autódromo Internacional do Algarve (PRT)

The 4.6-kilometre circuit runs through hilly terrain with steep gradients, blind corners and a 969-metre start/finish straight – an authentic driving challenge.

## Porsche GT Circle.

BECOME PART OF THE PORSCHE GT CIRCLE FAMILY.

Porsche GT Circle is a global community for Porsche GT vehicle owners – united by a shared passion for pure speed. Members can ask questions about their GT vehicle answered directly by Porsche experts. ## The Driver's Seat.

### PERSONAL TRACK MOMENTS FROM THE DRIVER'S SEAT.

Every Porsche story begins here: in the driver's seat. This is where fascination becomes driving enjoyment and individual moments become experiences. In "The Driver's Seat", participants share their personal Porsche Track Experience stories – moments full of tension, precision and pure performance. Authentic, intense and always from behind the wheel.

Be inspired. And discover how you can develop your skills on the track.

# Porsche Ice Experience.

## DRIFT INTO THE GREAT WHITE OPEN.

In Arctic Levi, Finland, challenging ice tracks, the latest Porsche models and adrenaline-charged driving moments await.

Each format brings you closer to the perfect drift – whether Ice Performance, Ice Force, Ice Force Pro or the exclusive Ladies Edition. For particularly intensive learning outcomes, the intense formats offer individual coaching with a personal Porsche instructor. At the highest training stage, Ice Ultimate, you will experience genuine racing feeling in the 911 GT3 Cup.

Discover magical moments above the Arctic Circle with an experience that combines sporting excellence and an exclusive lifestyle.

All new vehicles offered by Porsche are type-approved according to WLTP. Official NEDC values derived from the WLTP values will no longer be available for new vehicles after 1 January 2023 and can therefore no longer be specified.

If the values are given as ranges, these do not relate to a single, individual car and do not constitute part of the offer. They are intended solely as a means of comparing different types of vehicle. Extra features and accessories (attachments, tyre formats, etc.) can change relevant vehicle parameters such as weight, rolling resistance and aerodynamics and, in addition to weather and traffic conditions and individual handling, can also affect the fuel consumption / energy consumption, the CO<sub>2</sub> emissions, the range and performance values of a car.

You can find more information on the difference between WLTP and NEDC at [www.porsche.com/wltp](http://www.porsche.com/wltp). Further information on the official fuel consumption and the official specific CO<sub>2</sub> emissions of new cars can be found in the 'Guide to the fuel consumption, CO<sub>2</sub> emissions and energy consumption of new cars', which is available at all points of sale and from DAT (Deutsche Automobil Treuhand GmbH, Hellmuth-Hirth-Str. 1, D-73760 Ostfildern) or at [www.dat.de/co2](http://www.dat.de/co2).
