EC7004-SK 7" LCD Color Reversing Sensor System

ECCO camera / sensor systems take driver warning to the next level, integrating an ultrasonic obstacle detection system that adds passive protection in addition to warning lights, back-up alarms and standard camera systems. While standard systems only alert danger if the driver is using the monitor, an integrated sensor system will alert the driver audibly and visually before a collision is imminent, immediately directing attention to the camera system monitor and danger zone at the rear of the vehicle.

Design Features

- Widescreen monitor
- Integrated ultrasonic proximity sensors
- CMOS 11 LED infrared camera
- Three camera expandable

Components

-  EC7003-M
-  EC2014-C
-  ECTC20-4 (20m/65')
-  EC1004-SK (4 sensors/speaker)

Expansion Options

-  Any current ECCO camera
-  ECTC5-4 (5m/16'), ECTC10-4 (10m/32'), ECTC20-4 (20m/65')
