UNIVERSAL ROOF MOUNT KIT

High-Bond Tape Mount

The universal EZ6015/EZ6016 Series drill-free rooftop mounting platform secures to the roof of any work truck or fleet vehicle using our high bond tape (HBT) technology, allowing warning devices like minibars, beacons and full-sized lightbars to mount to the vehicle's roof without cutting into or damaging the cab. This no-drill rooftop platform installs in minutes and is made from industrial-grade aluminum.

Models

PART NO.	DESCRIPTION	COLOR
EZ6015-B	Universal HBT Rail Mounting System	Black
EZ6015-W	Universal HBT Rail Mounting System	White
EZ6016-B	Universal HBT Rail Mounting System with Plate	Black
EZ6016-W	Universal HBT Rail Mounting System with Plate	White

Design Features

- Fits all makes and models of pickups, SUVs, vans, and even cars
- Clean-looking and easy-install to avoid damage to the vehicle and no need to drill mounting holes
- Easily and reliably mount a number of products including beacons, remote spotlights, minibars, full-sized lightbars
- Industry accepted material and coating designed to prevent corrosion and avoid mechanical and cosmetic issues
- Low-profile lightweight aluminum design coupled with secure mounting to ensure there will not be excessive resistance, vibration or "fluttering"
- Uses high bond tape (HBT) technology to withstand speeds in excess of 186 MPH | 300 KPH
