Connections Jumpstart

Expert guidance and planning support to quickly send best-in-class, succinct & powerful data from your Sources to your Destinations

Overview

An intensive 3-week program to get your team up and running around 2-3 customer data use cases involving Data Collection, Data Democratization, Data Unification, and/or Data Privacy. We guide you on everything from strategic planning to QA best practices.

Activities

- Immersive knowledge transfer around Segment's capabilities, API, and best practices
- **Collaborative brainstorming** of your customer data measurement context & priorities
- Strategic planning and guided prioritization of your events around KPIs
- **Iterative refinement** of your strategic plan with long-term execution in mind
- **Technical partnership** with engineers, data scientists, and IT ops
- Joint success planning with business stakeholders to ensure tangible outcomes
- **Direct connection** to Segment support as needed to resolve technical issues

Outcomes

A comprehensive plan for your Segment Connections implementation

Key customer data flowing around measurement best practices around measurement best practices

A solid foundation for growing your analytics and marketing stack

Best if you're...

- New to the Segment platform
- Expanding your usage volume
- Unifying data collection across platforms
- Delivering data to new teams/BUs
- Implementing a consent manager or PII-management strategy

Pricing: Ask your Segment salesperson

Timing: Typically 3+ weeks

Led by: A Segment Solutions Architect

Required from you (and time commitments) Business stakeholders to inform goals & KPIs (25h) Marketing & product strategists to prioritize planning (25h) Dedicated engineers to implement API calls (60h)
