

# QuickBooks Integration

Cut costs and boost efficiency  
with a fully automated AP

## Customizable Module Features

- Single-use virtual cards
- Automatic expense reimbursements
- Intelligent vendor portal
- Secure global payments
- Touchless invoice workflows
- Paperless, automated reconciliation

## Integrate your Corpay payments solution with QuickBooks for seamless, intelligent processing

Corpay's advanced API integration establishes a secure connection with QuickBooks that syncs in real time, ensuring an accurate view of past and current spend. Continue using your familiar ERP while allowing us to automate the burdensome tasks of purchase order management, accrual requests, invoice collection, payment scheduling, and more.

Through our intelligent software, we provide end-to-end efficiency that empowers your business to consolidate disjointed, manual processes into one simplified workflow. Whether you're looking to process all payment types — including check, ACH, and virtual card — in bulk, optimize payment methods for your vendors, or boost your bottom line with cash rebates, we've got you covered. Even more, our platform allows users to review and approve payments from any device and at any time, so you can centralize processes between locations.

Our in-house implementation teams are trained to deliver seamless integration (often within weeks, not quarters) with minimal IT support required. With their expertise, you can count on a hassle-free process, and most importantly, an AP solution that benefits your business.

## World-Class Features for Your AP

Shorten payment processes  
with real-time spending insights  
and automated workflows

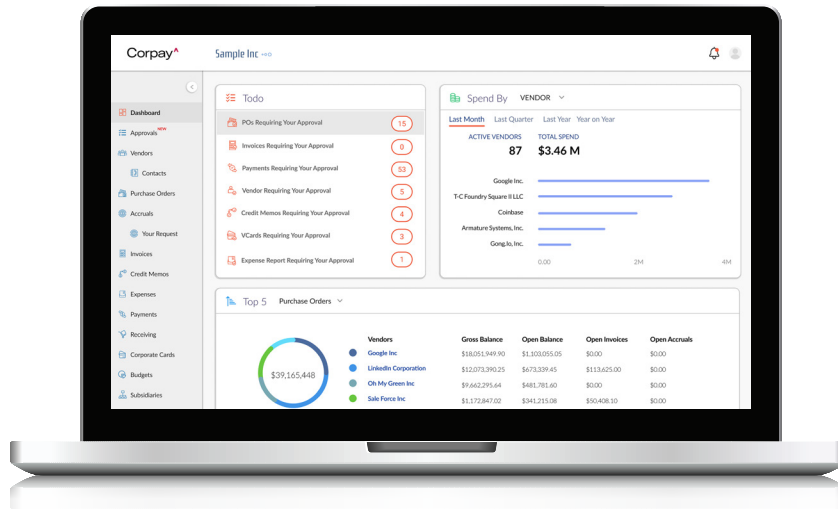

Automate and easily  
manage data input  
to reduce errors

Perform all AP and purchasing  
tasks in one centralized,  
cloud-based platform

By modernizing your procure-to-pay process with Corpay and QuickBooks, your company's AP department can maximize efficiency, mitigate risk, and even become a revenue generator.
