

Corpay Payments Automation Partners with Dealertrack

Leverage the Power of Dynamic Payments Automation

Corpay (formerly Nvoicepay), an Opentrack certified provider, provides dealerships with a fully automated vendor payments solution. This integration transforms the way dealerships pay their vendors by streamlining transactions into a single workflow, enhancing visibility and control, and maximizing vendor enrollment. Corpay's comprehensive solution empowers customers to expand working capital with monthly rebates and customization specific to their needs. By eliminating manual payment processes, Dealertrack DMS dealerships drastically improve efficiency and reduce AP costs, allowing their businesses to grow.

Key Features and Benefits

- **Easily execute** all vendor payments and payment types in a single workflow
- **Reduce AP costs** with faster payments, simplified reconciliation, and automated reporting
- **Maximize return** with monthly rebates and flexible terms to offset payment solution costs
- **Reduce fraud risk** through our fully resourced security and compliance infrastructure
- **Deliver a superior experience** to vendors with payment options that work best for them
- **Maximize virtual payments** with our extensive vendor network and continuous enrollment
- **Outsource all vendor** data storage and maintenance
- **Remotely control payments** with customizable approval workflows from any device
- **Transmit posted disbursements** via scheduled tasks
- **Save time** by centralizing all transaction information and history
