

Payment Solutions for the Evolving Healthcare Landscape

Take Care of Your Payments, Simply

Healthcare is a complex, ever-changing industry, with challenges that include emerging reimbursement models, increasing technology expenses, and extensive payment regulations. Corpay offers your hospital or health system a comprehensive platform that simplifies your vendor payments process and provides you with monthly rebate revenue streams.

Technology That Transforms

Our fully serviced payment and spend management solutions — backed by state-of-the-art technology and our extensive healthcare vendor network — help create efficiency, cut costs, and reduce fraud risk. You can start paying your vendors who are already in our network immediately. From onboarding and throughout the life of our relationship, you get a dedicated team focused on getting you the maximum value out of your payment program.

Empowering Your Healthcare AP Teams

We customize solutions that enable our healthcare clients to simplify their payments across locations. We empower you to maintain the flexibility to keep or change your treasury relationships while providing a consistent, centralized program that automates all your payments and saves hours of manual processing. This way, your locations can be patient-focused, not payment-focused.

Robust Healthcare Vendor Network

Nearly 850,000 unique vendors already accept Corpay virtual credit cards. Our vendor network includes those critical to the success of your hospital or health system:

- HVAC Maintenance
- Foodservice Providers
- Specialty Cleaning Services
- Uniform Services
- Direct Marketing and Advertising Services
- Surveillance and Security Firms

Corpay Solutions

We offer the widest breadth of payment solutions in the market for all your hospital and clinic needs.

Payments Automation

Streamline your payment processes

Simplify your AP with a single electronic workflow for all your business payments. We deliver payments to your vendors according to their remit-to instructions and in their preferred method, while you enjoy real-time visibility as payments clear. Eliminate the task of following up on unprocessed payments and answering vendor payment questions, and offload your liability for securely managing their sensitive data. Provide vendors with self-serve payment portal where they can view remittance advice.

Commercial Cards

Centralize and optimize your card programs

Gain control and simplify your card programs with a single solution for your T&E, purchasing, and accounts payable. We help optimize your card program to increase working capital and rebates.

Virtual Card

Simple, secure, single-use

With virtual cards, you're in control. Single-use virtual Mastercards® enable you to send secure payments to your suppliers. Earn rebates, reduce risk, and digitize your payments with Corpay Virtual Card.

Travel & Expense

Reduce paper processes, improve visibility

Helps teams manage credit card programs and reimbursements with our mobile-ready expense management solution.

Workforce Payment Solutions

Options for every need

Corpay is a pioneer in paycard development. We provide some of the country's leading hospitals and health systems with best-in-class electronic workforce payment solutions such as payroll cards, corporate disbursement cards, prepaid corporate spending cards, and incentive cards.

8 days faster

Automation reduces average invoice processing time from 11 days to 3 days.*

Optimizing Your Payments

Corpay Payments Automation empowers your hospital or health service with complete control of your payables — without you having to touch paper or manage banking data.

Our fully serviced suite of solutions enables you to:

Manage all payment types from one platform

Push as much spend to card as possible while managing traditional payment types

Minimize paper checks to reduce costs and mitigate fraud risk

Outsource all your vendor payment data management tasks

Automation That Works For You

Corpay brings you an integrated payables system that consolidates payments into a single workflow — no more separate AP runs for virtual credit card, ACH, and check payments. Our solution mimics your current approval process, so you avoid payment delays.

Payment Methods

Earn monthly rebates, minimize costs, and maintain visibility into your processed payment history.

VIRTUAL MASTERCARD — A unique, 16-digit credit card number used to pay a specific dollar amount to a single vendor.

PAYFORYOU — Our complimentary submission service for vendors who only accept credit card payments online or by phone.

CORPAY DIRECT — Our push payment system (also known as a buyer-initiated payment), built on our proprietary credit card network.

ACH — Alternate electronic payment option for vendors.

CHECK — Printed offsite in a secure environment.

Market-Leading System Integration

UNLIKE BANKS — we use mapping technology to communicate with any ERP or accounting system — including Infor (Lawson, Infinium and SmartStream), PeopleSoft, Meditech, McKesson and Oracle — so you don't have to change your AP workflow.

Best-In-Class Implementation Service

DEDICATED TEAM — Corpay focuses an in-house project manager — along with a team of technical and training resources — on getting your program deployed in a matter of weeks instead of quarters.

SUPPORT SERVICES — We provide a detailed project plan, implementation toolkit, training materials and reference guides to make your program as easy to manage as possible.

Vendor Enrollment

LEADING THE PACK — Our unique approach to supplier enablement yields virtual card programs that are on average 3 times the size of industry standards. We also enable suppliers for ACH. We validate, manage and secure supplier data on your behalf.

ALWAYS CONVERTING TO CARD — By continuously campaigning, and leveraging our PayForYou and ComdataDirect programs, our vendor enrollment team focuses on converting as much of your AP spending to card as possible, with continuous and dynamic enablement with every file.

Service and Support

KEYS TO SUCCESS — From payment support to full vendor data management, Corpay makes best-in-class service integral to your solution. Your Corpay support team constantly monitors your program and works with you to identify opportunities to earn more rebate revenue, increase controls, and boost process efficiency.

Our team handles payment inquiries, follows up on unprocessed payments, and validates vendor data and bank change requests, freeing up time for your team to focus on more meaningful work.

Case Study

A billion-dollar health system had a mature bank-run e-payables program through which they paid 215 vendors with a virtual card. They had exhausted their efforts with their bank and thought they had maximized their virtual card program.

Enter Corpay. In the first month of working with us, we helped this system double the size of their card program. They now pay over 1,000 vendors with a virtual card. Our approach and continuous supplier enablement has led to a substantially larger monthly rebate for this system, and greater cost reductions due to fewer check payments.

By automating AP, companies cut average invoice processing costs by

 **80%***
