Global Payments

Transform your finance teams' workflows by freeing them from the repetitive tasks of manual accounts payable and outdated point-based systems. Corpay Procure-to-Pay offers a suite of comprehensive modules designed to streamline processes, ensure stringent controls, and deliver heightened transparency — all within a single system.

Scale and Unify Your Spend

Process all spend and payments from one centralized system. Enjoy faster invoice processing with two- and three-way matching while you automate data input and extraction to save time and mitigate errors.

Gain Control

Maximize process control by leveraging artificial intelligence and machine learning to extract invoice data and enable smart coding. Consolidate all communications and transactions against your invoices in one repository.

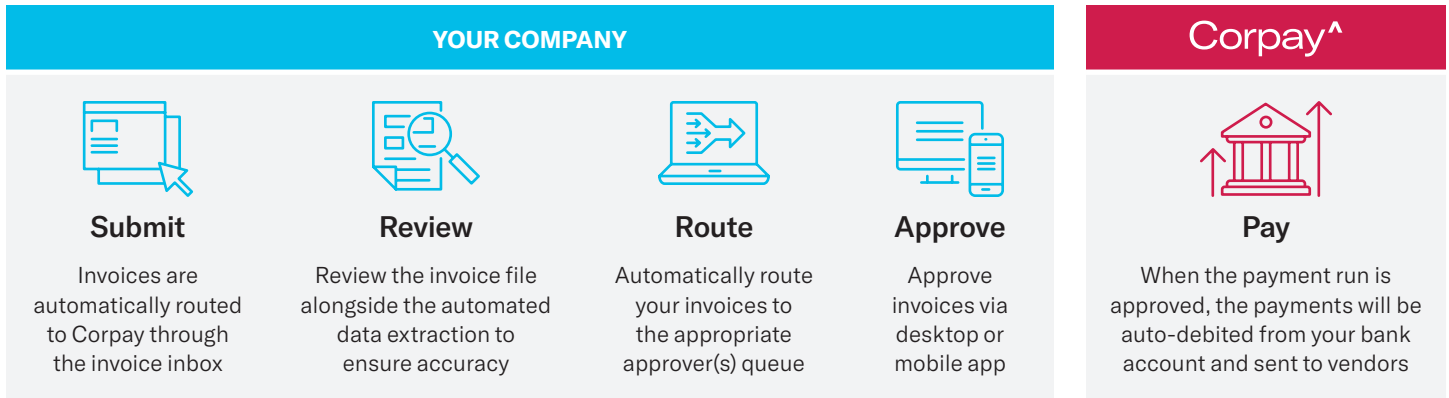

Mitigate Fraud

Protect your payments against fraud by collecting and validating banking information up front, and by recording every approval and change within our Data Audit Log.

Improve Efficiency

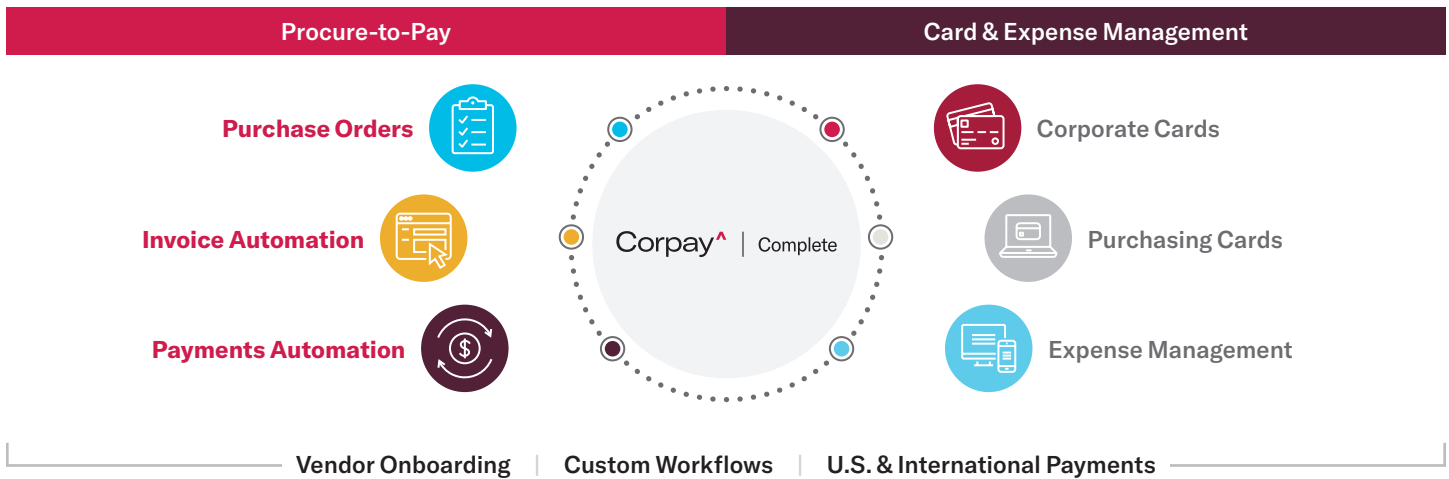

Combine with Corpay Payments Automation to streamline your payments process and maximize efficiency. Create a single workflow for all payment types and maintain full control and visibility of your payments process.
