

Case Study

Wyoming Hospital Association

Wyoming hospitals enhance patient care and save over \$36,000 with Corpay's AP Automation solutions.

CASE STUDY

Industry: Healthcare

Member Hospitals: 35

Location: Wyoming

Client Profile

The Wyoming Hospital Association (WHA), headquartered in Cheyenne, is a member-owned, non-profit organization representing Wyoming hospitals. WHA serves as the voice of these hospitals before legislative and regulatory bodies, the media, and the public. Beyond advocacy, WHA offers data services, educational programs, and various membership services, supporting Wyoming hospitals in delivering high-quality patient care amidst financial and operational challenges.

Challenges

Wyoming hospitals faced severe staffing shortages, supply chain issues, soaring inflation rates, and the lingering impacts of the COVID-19 pandemic. These factors, combined with thin operating margins, jeopardized patient access. The WHA needed a solution to save money and allow hospitals to continue delivering exceptional patient care.

“Corpay is a company that wants to engage with our members and be a part of what we’re doing here in Wyoming. The way that they treat us, the association, and our members has been really helpful.”

Vice President

WHA

Solution

Corpay (formerly Paymerang) partnered with WHA to provide time and cost-saving AP automation solutions tailored for small hospitals. Corpay’s best-in-class Payments Automation and Invoice Automation solutions helped member hospitals cut costs and increase revenue, offsetting high healthcare expenses. By cutting down on time spent printing and signing checks, AP staff could focus on critical tasks and strategic initiatives, ultimately prioritizing patient care and community commitments.

Results

After implementing Corpay's AP Automation solutions, WHA members saw remarkable improvements. Memorial Hospital of Carbon County regained 147 hours (18 business days) and earned \$3,787 in net rebates since January 2022. Memorial Hospital of Sheridan County regained 93 hours (11 business days) and earned \$33,140 in net rebates since September 2022. These results improved operational efficiency and financial stability, ensuring better patient care and resource allocation.
