

Payment Solutions for Enterprise

At Corpay Cross-Border, we aim to deliver unmatched service and expertise with respect to moving money globally. Utilizing our proprietary payment automation technology and currency risk mitigation solutions, we connect corporations with the global financial markets and businesses with each other all over the world.

You can feel confident working with Corpay for your global payment needs. We are backed by our parent company, FLEETCOR Technologies, Inc. (NYSE:FLT), a leading global business payments company based in Atlanta, Georgia, USA. FLEETCOR is a Fortune 1000 firm, an S&P 500 member and has USD \$2.4B in annual revenue with a market capitalization of USD \$23B (as of Dec 31, 2020).

Technology

A spectrum of secure integration options between your ERP and our proprietary platforms to connect you to the most comprehensive global payments gateway in the market

RESTful API-driven suite of solutions designed to integrate seamlessly into your client portals and service ecosystem to increase productivity, enhance your User Experience (UX), and scale for future client growth and acquisition

Integrate and connect with our entire suite of solutions, and best-in-segment delivery capabilities

Agile pricing models to accommodate client sensitivities to margin and fees per corridor and payment modality

Process Workflow

Holistic approach to workflows – native across all platforms and devices; allowing you and your customer to quickly accomplish payments objectives

Seamless beneficiary build, bulk currency acquisition and payment execution through straight file upload or API, accomplishing end-to-end processing tasks with one point of integration

Easily scale your current and future portfolio of customers with flexible onboarding options

Reduce costs associated with multiple settlement steps with our direct settlement options: a more efficient processing environment

Service Model

Dedicated team of subject matter experts aligned across the globe, providing multinational clients seamless service and continuity 24/6

Initial project and ad-hoc technical support to demonstrate and advise on a wide spectrum of integration options as your business scales and evolves

Support and service delivered with a deep understanding of your client's business needs and aligned within your own set of client Service Level Agreements (SLAs)

Project Management support to manage expectations, bridging stakeholder communication to bring the project successfully across the finish line

Veteran leadership with expertise in professional service engagements who proactively respond to, and solve, even the most challenging integration and automation goals

Product Capabilities

Extend your global payments reach and confidently market to a more profitable breed of upstream clients with the most comprehensive global payments coverage:

- 145+ currencies delivered to over 200+ countries
- In-country payment delivery in 117 countries
- Same day payment delivery in 10 currencies spanning over 25 countries
- Local direct deposit payments (iACH) in 34+ currencies to over 60 countries

Stack and organize your entire global portfolio of clients and segregate reporting for account management and data analytics needs

Automate data exchange, payment processing tasks, and daily report reconciliation to streamline the full accounting cycle, saving valuable time that can be spent growing your business

Access a full suite of tools offered on our platform or via API that enable timely and accurate payment delivery, such as IBAN Validation, Bank Look-Up and Regulatory Rule wizards to reduce payment exceptions

Automatic rate guarantees and forward drawdowns via file upload and API to insulate pricing against currency movement

Vendor Portal for payees to self-manage banking information, thereby saving steps, reducing errors, and giving staff back valuable time to perform core business functions

Spectrum of white-label options for faster Go-To-Market
