

Increase safety. Reduce maintenance downtime. Fast ROI

# mBox® Maintenance Box

mBox® with retracted platform  
(production position)

mBox® with extended platform  
(maintenance position)

**HF GROUP** has identified two major hazard areas for mixer maintenance - **the feeding door** and **the drop door area**.

For safe maintenance actions in the mixer's drop door area **HF GROUP** has developed the **Maintenance Box mBox®** that is integrated in the mixer platform and stands for a high sophisticated solution that combines safety with user-friendliness and cost effectiveness.

## Your benefits

- THE safety concept to minimize risk of injury
- User-friendly access for up to two persons
- Easier access for maintenance and cleaning
- Reliable platform and excellent working conditions
- Reduced maintenance downtime, costs and therefore really fast ROI
