

# Post Cure Inflator and auxiliary equipment (PCI)

Simple design - reliable - easy adjustment

## Post Cure Inflator – Technical data

Item	Unit	Post Cure Inflator
Frame construction type		stack/stand alone
Control type		common/independent
Max. closing force	kN (t-force)	170 (17)
No. Inflation stations		4 (2 per cavity)
Bead height adjustment		stepless by recipe/touch panel
<b>Tyre Parameters</b>		
Min./max. Bead diameter	inch	12-25
Max. Cured tyre outer diameter	mm (inch)	1,000 (39.4)
Max. Cured tyre height	mm (inch)	450 (18)
<b>Loading/Unloading</b>		by press unloader/stand alone unloader
<b>PLC Systems/Automation</b>		main suppliers available
<b>Safety</b>		according to local safety standards

All data are nominal and may vary to suit a specific application
