

HF Curemaster is the new benchmark in truck tire manufacturing.

Space

- Flexible and compact footprint
- Possibility to replace older, smaller presses
 - > Potential for more presses per existing trench

Quality & Maintainability

- Even distribution of squeeze force ensures optimum tire uniformity and longest mold life
- Longer life time of the hydraulic components due to maximum hydraulic pressure of only 100 bar
- Easy access to main hydraulic, pneumatic and heating components

Modularity

- Press accommodates molds from 62-67"
- Modular design to meet the latest market requirements
- Customized modules offer adjustment to customers specifications and individual needs
- Built according to the latest safety, environmental and manufacturing requirements

Total Cost of Ownership

- Designed to provide the lowest energy consumption
- Durable construction for longer press-life
- Meets the highest requirements for availability, performance and quality
