Curve

MODULAR SOFA SYSTEM

Design Ilari Jääskeläinen

The Curve sofa has a light look. Beautiful roundness in the back and armrests bring a modern and relaxed look. The look and appearance of the sofa is just as important as how comfy it feels when one sits on it. The design of the Curve is timeless: it looks as long-lasting as its high-quality materials.

The sofa is easy to clean, as the fabric cushions are with removable covers. Curve is also available with piped seams.
