CHAIR FAMILY

Models, materials and functions

Seat and backrest materials

Available in formed wood (birch, beech, oak, ash), technical veneers (natural birch, plywood color, deadwood grey) and laminates (white, birch, beech, dark grey, oak, light grey and black). The seat is also available as painted in white or black. The seat and backrest can be upholstered with ISKU standard fabrics with some exceptions.

4 backrest options

Solid back, low and high
Two-part back, low and high. The color of the screw in two-part backrest screw is gray, silver, black, white or chrome.

leg options

Tubular 4-leg frame of powder coated steel (grey, silver, black, white and chrome).

Loop leg frame of powder coated steel (grey, silver, black, white and chrome)

Wooden leg (birch, beech, beech, ash)

Cross-bases (with pads or castors)

Armrests

Most models are available with armrests (powder coated steel; grey, silver, black, white or chrome).

Stackability

The chair with metal frame are stackable. In the chair trolley stackability of Tutto with solid back is 20 pcs, and with two-part back 15 pcs. On the floor the stackability is 15 pcs.

Linking

Loop-legged and tubular 4-legged chairs can be connected together in rows by a secure linking device.
