

# 2007

## DRAWER UNIT

Design Juha Lätti

The 2007 drawer unit is a compact and versatile storage unit for workstations. The wide variety of materials and accessories offers designed-for-purpose combination for every need.

The drawer is equipped with lockable front wheels and a foldable key. The locking mechanism prevents no more than one drawer opening at a time. The product is available with 3 or 4 drawers, and with selected accessories. More information of the options available on the 2007 Datasheet.

Available as an antimicrobial.

### Materials and finishing

Frame and front	Natural birch, beech, oak and ash. Standard stained ash and beech colors. White, black and dark or light grey mel.
Additional table top	Natural beech, birch and oak. Stained beech, white lam or light grey mel.
Handles	Silver, chrome, black and white. HYG handles white and grey.
Castors	Plastic, front wheels lockable

### Dimensions

Width	426 mm
Depth	624 mm
Height	575 mm / 740 mm with additional table top
