

Hub

MODULAR SOFA

Design Knudsen Berg Hindenes

Playful and friendly sofa for public spaces. Hub is a soft-seating, modular sofa that has only a few modules but multiple combination possibilities. You can either line the modules or twist them playfully for different looks. How does your Hub look?

Materials and finishing

Upholstery	Selection of ISKU standard fabrics, see more on the datasheet
Legs	Pulver coated steel

Dimensions

Width	730/1460/2190 mm
Depth	730 mm
Height	800 mm
Seating depth	505 mm
Seating height	460 mm
Leg height	120 mm

Hub

MODULAR SOFE Datasheet

HUB consists of modules based on three different structural parts. 2 different seat parts (1-seater & 2-seater) and a back section. These parts can then be applied to a clean sofa bench without any backrest and a sofa with backrest, in a right and left position.

The modules have the same radius / fillet in the transitions in the upholstery. This makes it possible to link all the modules to each other, equal in all directions.

Measurements

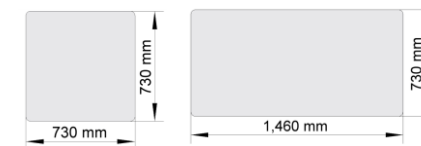

Width	730/1460/2190 mm
Depth	730 mm
Height	800 mm
Seating depth	505 mm
Seating height	460 mm
Leg height	120 mm
