

Nook

LEARNING & WORKING DEN

Design Petteri Häkkinen

Nook is a novel space-in-space solution for working, learning and playing – for offices, schools and homes.

The den with lightweight elements is an easy set-up to any space and by anyone. Nook can be furnished as you wish: it can hide desk and chair or a soft beanbag chair.

Nook is sold in a package of 6 felt elements with 2x20 connectors.

Materials and finishing

Nook is eco-friendly products: the manufacturing material of Nook is made 60 % recycled PET plastic bottles, and the product itself is 100% recyclable.

Sound-absorbing panels are available in dark gray and light gray.
