This website is owned and operated by G Mining Ventures Corp. Where we say “we”, “us”, “our”, “GMIN”, “G Mining Ventures” or the “Corporation”, we mean G Mining Ventures Corp. and, if and when applicable, one or more or all of its affiliates (within the meaning of the *Canada Business Corporations Act*), as may be applicable.

By using this website, you agree to the following terms and conditions.

Cautionary Statement on Forward-Looking Information

Certain statements, other than statements of historical fact, contained on this website, including in the documents posted on this website, constitute “forward-looking information” and/or “forward-looking statements” within the meaning of certain securities laws, including the *Securities Act* (British Columbia) and the *Securities Act* (Ontario), and are based on expectations, estimates and projections as of the date such information is presented on this website or as of the date of any of the documents posted on this website, as applicable. Forward-looking statements include, without limitation, statements with respect to the research and acquisition of mining projects, and, thereafter, the development, optimization, construction, commissioning and commercial operation of any such project; the future price of gold and other metals; the estimation and realization of mineral reserves and mineral resources; the timing and amount of estimated future production, costs of production, all-in sustaining cost and capital expenditures; the costs and timing of developing additional projects and new deposits; the success of exploration, development and mining activities; permitting timelines; currency fluctuations; requirements for additional capital; government regulation of mining operations; environmental risks, unanticipated reclamation expenses, title disputes or claims, and limitations on insurance coverage; our guidance for production, production costs of sales, all-in sustaining cost and capital expenditures, as well as expected savings pursuant to our cost review and reduction initiatives; modifications to projects and operations and to our exploration budget.

The words “anticipates”, “plans”, “expects”, “view”, “indicates”, “indicative”, “intends”, “scheduled”, “budgeted”, “estimates”, “forecasts”, “focus”, “guidance”, “initiative”, “model”, “timeline”, “methodology”, “outlook”, “potential”, “possible”, “suggests”, “projected”, “prospects”, “seek”, “pursue”, “explore”, “strategy”, “study”, “on track”, “targets”, “options”, or “believes”, or variations of, or words similar to, such words and phrases, or statements that certain future conditions, actions, events or results “will”, “may”, “could”, “would”, “should”, “might” or “can”, or negative versions thereof, “be taken”, “occur”, “continue” or “be achieved”, and other similar expressions, can identify forward-looking statements.

Forward-looking statements are necessarily based upon management’s perceptions of historical trends, current conditions and expected future developments, as well as a number of specific factors and assumptions that, while considered reasonable by us as of the date of such statements, are inherently subject to significant business, economic and competitive uncertainties and contingencies which could result in the forward-looking statements ultimately being incorrect. In addition to the various factors and assumptions set forth on this website, the material factors and assumptions used to develop the forward-looking information include, but are not limited to: (1) there being no significant disruptions affecting our operations, whether due to labour disruptions, supply disruptions, power disruptions, damage to equipment or otherwise; (2) permitting, development, operations and expansion activities (including, without limitation, land acquisitions and permitting) being consistent with our current expectations; (3) political and legal developments in any jurisdiction in which the Corporation, or any entity in which it now or hereafter directly or indirectly holds an interest, carries activities being consistent with our current expectations; (4) the exchange rate between the Canadian dollar and the U.S. dollar being approximately consistent with current levels; (5) certain price assumptions for gold and other metals; (6) prices for diesel, natural gas, fuel oil, electricity and other key supplies being approximately consistent with current levels; (7) production and cost of sales forecasts for the Corporation, and entities in which it now or hereafter directly or indirectly holds interests, meeting our expectations; (8) the accuracy of the current mineral reserve and mineral resource estimates of the Company (including but not limited to ore tonnage and ore grade estimates); (9) labour and materials costs increasing on a basis consistent with our expectations; (10) the development of our activities being generally consistent with our current expectations; (11) goodwill and/or asset impairment potential; and (12) access to capital markets being consistent with our current expectations; and that the risk factors noted below, collectively, do not have a material impact on us.

By its nature, forward-looking information is subject to inherent risks and uncertainties that may be general or specific and which give rise to the possibility that expectations, forecasts, predictions, projections or conclusions will not prove to be accurate, that assumptions may not be correct, and that objectives, strategic goals and priorities will not be achieved. Known and unknown risk factors, many of which are beyond our control, could cause actual results to differ materially from the forward-looking information on this website. Such factors include, but are not limited to the factors noted in our filings with the securities regulators of Canada including, but not limited to, the cautionary statements made in the "Risk and Uncertainties" section of our most recently filed annual Management's Discussion & Analysis ("**MD&A**") or any subsequently filed interim MD&A, as well as: fluctuations in the currency markets; fluctuations in the spot and forward price of gold or certain other commodities (such as fuel and electricity); changes in national and local government legislation, taxation, controls, policies and regulations; business opportunities that may be presented to, or pursued by, us; our ability to successfully integrate acquisitions and complete divestitures; operating or technical difficulties in connection with mining or development activities; employee relations; litigation or other claims against, or regulatory investigations and/or any enforcement actions or sanctions in respect of us (and/or our directors, officers, or employees) including, but not limited to, securities class action litigation in Canada, or any investigations, enforcement actions and/or sanctions under any applicable anti-bribery, international sanctions and/or anti-money laundering laws and regulations in Canada or any other applicable jurisdiction; the speculative nature of gold exploration and development including, but not limited to, the risks of obtaining necessary licenses and permits; diminishing quantities or grades of reserves; and contests over title to properties. In addition, there are risks and hazards associated with the business of gold exploration, development and mining, including environmental hazards, industrial accidents, unusual or unexpected formations, pressures, cave-ins, flooding and gold bullion losses (and the risk of inadequate insurance, or the inability to obtain insurance, to cover these risks).

These risk factors are not intended to represent a complete list of the factors that could affect us and the reader is cautioned to consider these and other factors, uncertainties and potential events carefully and not to put undue reliance on forward-looking statements. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Forward-looking statements are provided for the purpose of providing information about management's expectations and plans relating to the future. We disclaim any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise, or to explain any material difference between subsequent actual events and such forward-looking statements, except to the extent required by applicable law. All of the forward-looking statements contained on this website are qualified by these cautionary statements. Additional information about the risks and uncertainties concerning forward-looking statements and material factors or assumptions on which information contained in forward-looking statements is based is provided in our filings with the securities regulators of Canada including, but not limited to, our most recently filed annual MD&A or any subsequently filed interim MD&A, available under our profile at www.sedar.com.
