Challenge

Thriving businesses know the importance of community, celebration, and belonging in the workplace. And today, this social support is more important than ever.

"83% of U.S. employees say their work family makes them feel happier." – HP Print Work Family Research

Solution

That is why we've built Celebrations. This group of solutions provides a social experience for employees to come together from across the organization to celebrate life's momentous occasions – both inside and outside of work – with their work family by:

- Empowering employees to bring their whole selves to work.
- Promoting human connection in a remote, hybrid, or in-person work environment.
- Creating an internal social feed that employees will love.
- Advancing your diversity, equity, and inclusion initiatives.

Here are the three components that work together to bring your Celebrations experience to life:

**Service
Milestones®**

Service Milestones®
Celebrate career achievements.

Turn your employees' career achievements – onboarding, promotions, transfers, years of service, and retirement – into lasting memories with a modern social experience that crowdsources content, pictures, and stories to make work milestones meaningful and memorable for every employee.

Life Events®

Life Events® Celebrate meaningful life moments.

Encourage employees to bring their whole selves to work by celebrating life's most important moments: marriages, babies, new homes, and more. While contributing stories and comments, employees will also forge deep social bonds that inspire them to do their best work.

Community Celebrations®

Community Celebrations® Celebrate group events.

Unite employees around shared interests and events like CSR initiatives, ERGs, fitness groups, team activities, and holidays. Encourage them to share their memories and media to create organic social connections that increase feelings of belonging.
