For more information about any new features, please contact your Account Team

Disclaimer: The features listed in this document may not be immediately available to every recognition program due to Client specific program configurations. To check availability and to learn more about adopting these features, please contact your Customer Success Manager. These release notes are considered general release information, and as such, the features listed herein are subject to change at the sole discretion of Workhuman.

Workhuman reserves the right to revise the release notes or make improvements or changes to the features outlined in the release notes, at any time, and without notice. Workhuman makes no representations or warranties with respect to the contents of this document and specifically disclaims any implied warranties of merchantability or fitness for any particular purpose.

Feature Release Highlights

A look back to June

What's Coming in June (Cont.)

| Product	Feature	Overview	Availability	Prerequisites
Integrations	Newsfeed API	A new Newsfeed API allows organizations to integrate Workhuman with 3rd party applications of your choice, such as an employee portal. This new API extends to the Workhuman Cloud into other areas of the business and helps organizations drive adoption of their recognition program.	Early Access	API development resources
Integrations	Slack Enterprise Grid	Slack Enterprise Grid allows organizations to deploy, and employees to collaborate across, multiple workspaces. Workhuman's Conversations Slack integration can be deployed to cross workspaces through Slack Enterprise Grid.	Early Access	Slack Enterprise Grid / Conversations
Mobile	Dark Mode	Do you enjoy using the dark mode setting on your iPhone/Android device? If so, you can now easily invert the color scheme of the Workhuman app from light to dark using a new dark mode setting.	Early Access	Mobile App
Reporting	Reporting Privileges updates	New reporting UI enhancements include additional filters available for Award Reasons, Status and Employee ID as well as multiple select filtering now available in more than one column at a time.	General Availability	Reporting Privileges

Feature Release Highlights

What's Coming in July

What's Coming in July

| Product	Feature	Overview	Availability	Prerequisites
Conversations	New UI Design	Introducing a new, modern, user-friendly UI for Check-ins, Feedback, and Priorities. Employees are guided through each Conversation experience, with structured sections for check in date, description, values, and more. This new UI helps employees better craft their content and get more value out of their Conversations.	General Availability	Conversations
Integrations	Microsoft Teams Integration	Extend Social Recognition into MS Teams. Award notifications can be viewed within the Teams application, increasing employee engagement with the program. Additional use cases to come!	Early Access	Microsoft Teams
eCommerce	Enhanced Search	Find products faster in the Workhuman store with enhanced search capabilities. Enhancements include better navigation; new results display lists and suggestions, and enhanced filtering.	General Availability	Store
eCommerce	Shop My Balance	How often do you find yourself searching for products that are within your points budget? Now, shoppers can quickly tap "shop my balance" in the category menu or filter to find a full range of products just in their points range!	General Availability	Store

Conversations

**Enhancing the user experience with new, a modern UI**

- A new, modern UI for Check-ins, Feedback, and Priorities guides employees through each Conversation experience, with structured sections for check in date, description, values, and more.

- This new design:
  - Improves the user experience
  - Provides a guided experience that helps employees craft their content
  - Leads to better 1:1s, more detailed feedback, and better articulation of priorities
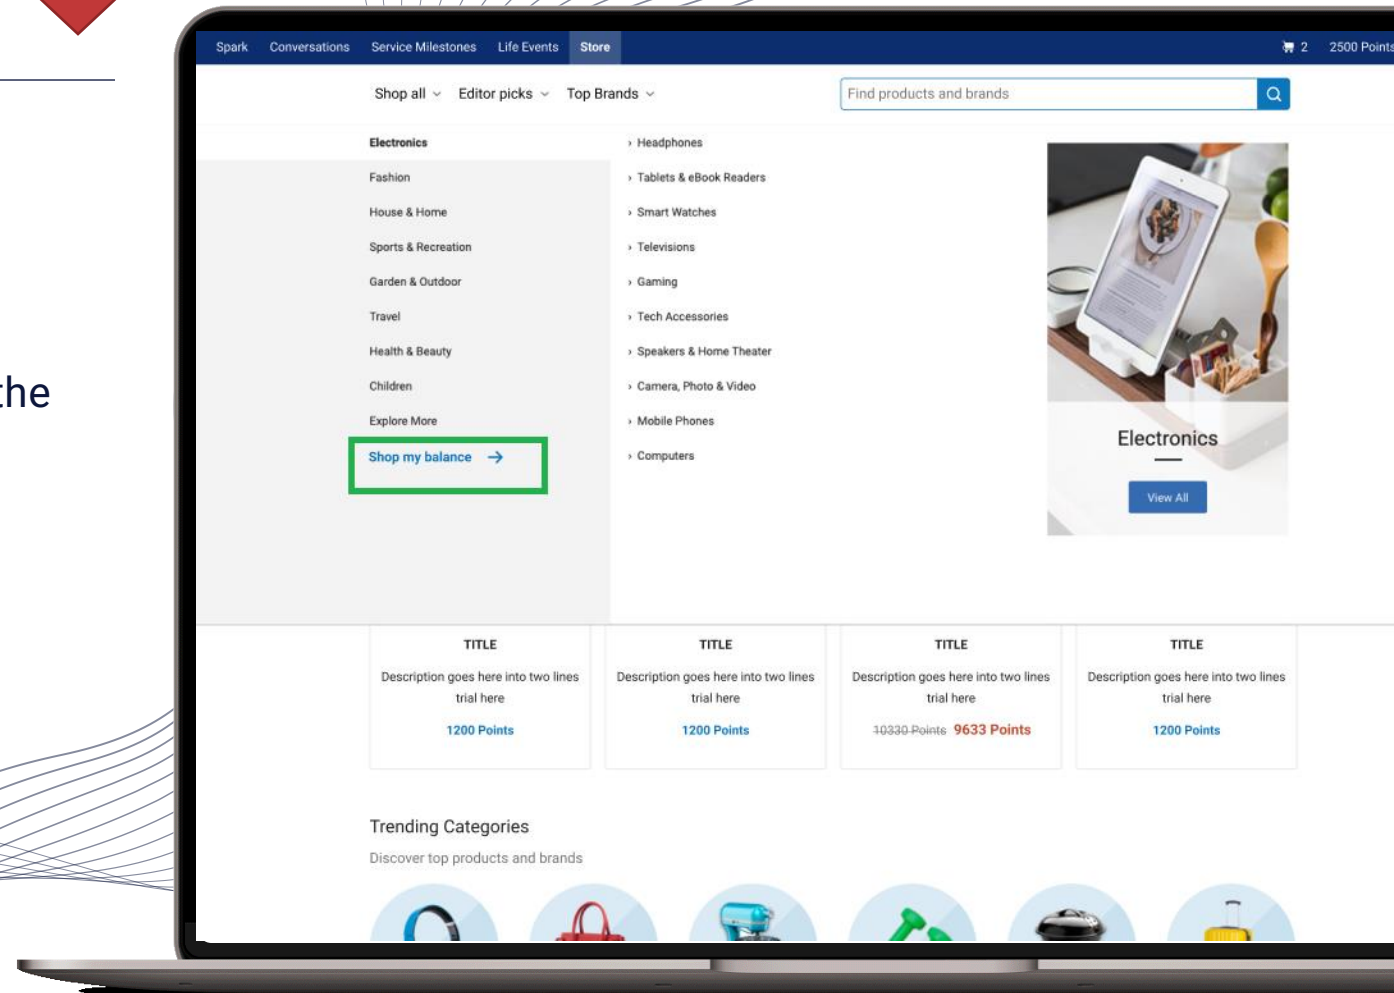

eCommerce

Enhanced Search

- Helps employees find what they're looking for – fast.

- Updates include:
  - **Improved navigation:** return to your previous position in the Search Results list when navigating back from the product detail page
  - **Updated filters:** narrow your search using filters from the left side of the category page
  - **Better search results:** see "top categories" on the search results your search returns zero results

eCommerce

Shop My Balance

- How often do you find yourself searching for products that are within your points budget?

- Now you can quickly tap "shop my balance" in the category menu or filter to find a full range of products just in their points range!
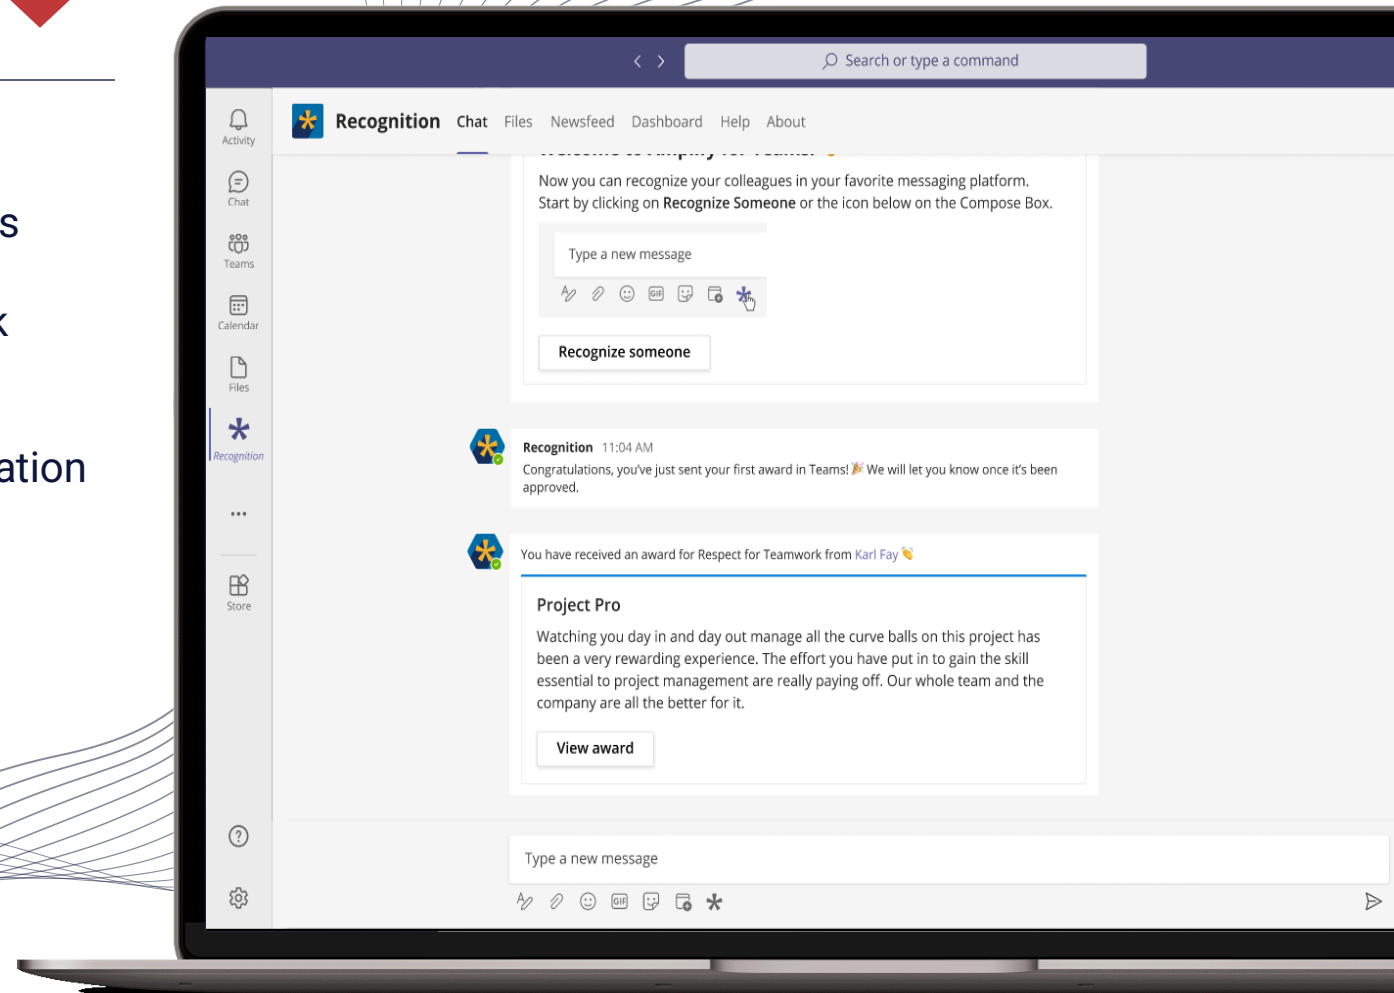

Integrations

Microsoft Teams

- Extend Social Recognition into Microsoft Teams

- View award notifications within Teams, and link directly to your award in Social Recognition

- This is the first milestones of our Teams integration – more to come!
