What's new in the Workhuman Cloud

MAY 2022

Completed Product Updates — April 2022

What area changed?	New / Updated Feature	Feature Overview
Moodtracker	Improved experience for launching surveys	Now, you can track the progress toward sending a survey and have more options on when to send follow up surveys.

Moodtracker

More guidance and configuration options for pulse surveys

New features include:

- An interactive "stepper" that shows your progress toward launching a survey

- Additional options to set the cadence of survey pulses and subsequent invitations

- A final summary screen to review before surveys before launch.

Conversations
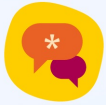

Delete comments in a flash!

We know how frustrating it can be when you add a comment to the wrong thread or that time you put "their" rather than "there" so we listened to your feedback and are extending our comments functionality to include delete. We hope you love this little addition as much as we do!

We can really start to see the transition here. Amazing work!

Maggie Jameson 6m
We should get the team together Monday morning to discuss what our plans are for the 2nd qurter.

Me 4m
Absolutely, the progress being maD08de is fantastic

Me 3m
This has been a monumental effort from everyone on the team, I'm so proud of us!

Lee O' Neil 2m
Sounds great! I'll put something on the book!

Maggie Jameson 2m
...if he can join us Monday to discuss our plans moving forword.

Thank you
