

Community Celebrations

Features

Customizable: Together, we'll design a Community Celebrations® program that fits your company's needs and culture by bringing your values to life. Awards can consist of e-thanks, points, cash, or a combination.

Interactive and immersive: Employees will receive a beautifully curated gallery of upcoming and past celebrations where they can add comments, congratulations, photos, and videos.

Integrated: Community Celebrations integrates with Social Recognition®, Service Milestones®, and Life Events®, making it easier to recognize and celebrate the whole human – both inside and outside of work.

Challenge

The need to belong has always been a part of the human condition. Organizations function best when committed people work in cooperative relationships based on respect and build a sense of community from a robust, compelling culture.

With more people working remotely – now and likely into the future – this need has become even greater and more keenly felt. But how can organizations enable the entire work family to share in and celebrate community events?

Solution

When you celebrate group activities with your work family – even if in a virtual format – you cultivate belonging across a diverse workforce and enable employees to come together and grow as a team. Celebratory cultures are built on foundations of belonging, social support, and social exchange, leading to higher engagement and productivity, fewer conflicts, and less stress.

Community Celebrations, part of Workhuman Cloud®, helps your humans share in joyous events throughout the organization. Think:

- Team outings
- Volunteer work
- Holiday observances
- Social responsibility and employee resource group (ERG) projects
- Charitable events
- Offsites
- Fitness clubs
- Festivals

Proof

According to Workhuman® data, connection can increase ROI in a number of ways:

- 12% higher profit
- 7% more engaged employees
- 46% fewer safety incidents

Empower your people to celebrate their whole and best selves – and bring them to work.

83%

of U.S. employees say their work family makes them feel happier. 69% say they are more successful at work because of these close connections.
