

SMART EDGE CAMP 2024

Give your child a SMART Edge!

SMART EDGE PROGRAMS AT CENTER FOR BRAINHEALTH

The Strategic Memory Advanced Reasoning Training (SMART) Edge! Program is a cognitive intervention that teaches adolescents strategies to improve brain efficiency through organization, synthesis, abstraction, and interpretation of meaning. We have several options for students who are going into 6th grade up to 11th grade.

SMART Edge Camp (8 Days)

- July 22 - July 25 / July 29 - August 1
Monday - Thursday / 9:00AM - 3:00PM
- Sixth graders, seventh and eight graders, and high schools students have their own separate age-appropriate cognitive training sessions.
- Students participate in activities and games that enhance the cognitive processes being learned in the cognitive training sessions.

Private One-on-One

- Student meets with the cognitive trainer individually
- 12, one-hour sessions over a six-week period
- Sessions are scheduled by mutual decision of parent and trainer

After School Small Group

- A small group of students works with one of our cognitive trainers
- 12, one-hour sessions over a six-week period

LOCATION

The Center for BrainHealth is located at:

2200 W. Mockingbird Lane,
Dallas TX 75235
