

# Help Test a BrainHealth Tool

Center for BrainHealth® at The University of Texas at Dallas is conducting a research study to learn more about how we measure brain health. We are testing an online assessment to see how consistent and reliable it is over time.

## Who Is Eligible?

Generally healthy adults, ages 18+ with internet access and a device. (Other criteria may apply)

## What Will You Do?

- Complete online brain health assessments (under 2 hours)
- Take the same set of assessments twice within two weeks
- Assessments include questionnaires and thinking tasks

Compensation is available for those who complete the study. If you are interested, scan QR code to see if you are eligible.
