Participants Needed for Brain Research Study

What is the study for?

The Filbey Lab is conducting a new study on cognition using neurostimulation and EEG.

Who is eligible?

- Individuals that are between the ages of 18-55
- Individuals that are right-handed

Why participate?

Participants will be compensated for their time, or students can choose SONA credits instead.

To see if you are eligible, scan the QR code and complete a short form.
