# Center for BrainHealth

## 2024-2025 Advisory Board Responsibilities

**The primary responsibility** of the Advisory Board is to promote the vision and mission of the Center for BrainHealth by being an effective ambassador.

*Our vision is to unlock human potential through improved brain health and performance.*

*Our mission is to focus on discovering and translating scientific breakthroughs into practical strategies that increase brain health and performance in meaningful ways.*

This is best accomplished by:

- Attending at least two of the three annual board meetings.
- Making an annual contribution, ideally at a Friends of BrainHealth level, with a signed pledge by September 1 of each year. 100% board participation in annual giving is vital for BrainHealth's philanthropic grant acquisitions. Various levels of membership are available, and gifts can be paid in installments at all levels:
  - Friend: \$1,000
  - Special Friend: \$2,500
  - Esteemed Friend: \$5,000
  - Distinguished Friend: \$10,000
  - Visionary Friend: \$25,000
- Participating in the Advisory Board Orientation for new board members to learn about the programs, research projects, and involvement opportunities.
- Making your special interests and abilities known in order to enhance your involvement.

**Additional ways** to be an effective ambassador for BrainHealth:

- Attend at least two annual BrainHealth events (in addition to the board meetings).
- Invite others to become Friends of BrainHealth. This annual donor circle votes to grant pilot funding to an emerging scientist whose innovative research study is most compelling.
- Consider a long-term charitable gift to particular research or program interests, company matching, in memory/in honor contributions, or a planned gift.
- Serve on a special committee or task force.
- Get a BrainHealth Index to better understand cognitive and performance abilities, establish a baseline for yourself and gain ideas for long-term improvement.
- Enroll in The BrainHealth Project and/or participate in a research study.
- Participate in unique training opportunities.
- Invite your corporation or non-profit to participate in BrainHealth training opportunities.
- Make introductions within your personal and/or professional networks to corporations or institutions that may be interested in BrainHealth programs, training or other partnering opportunities.
