

**"THEY'RE
SAFE...
I GOT
THEM FROM
A FRIEND."**

WOULD YOUR TEEN KNOW BETTER?

Fake prescription pills made with fentanyl and other dangerous chemicals are being sold on social media every day—and they look exactly like the real things. Our short, expert-informed videos give teens the facts without a long lecture.

Pick one. Text it to your teen. Then bring it up at dinner or on your next car ride to start an open conversation that builds awareness and safety.
