

A choice you can count on

Our signature suspensions help ensure dosing accuracy.

Inventors of patented signature suspension technology

-  Offers a **uniform distribution** of the active ingredient
-  Provides a **consistent taste** time after time
-  Allows for **reduced sugar/high-fructose sweeteners**

The first pediatric pain relief brand to develop and patent an oral suspension

Use products only as directed.

Not all suspensions are created equal!

Uniform medicine distribution is key to providing a correct dose after shaking.

Uniform medicine distribution

Non-uniform medicine distribution

KEY:  Medicine  Suspension Technology  No Suspension Technology

Children's TYLENOL® and Children's MOTRIN® are created with suspension technologies, which help to **provide consistent dosing!**
